OUR BUSINESS: eData Collectors, Inc. (EDCI) is a turn-key technology firm offering software, mobile devices and services to increase Big Data Capture and Business Intelligence. Unlimited mobile apps use Apple, Android or Windows phones and tablets for critical data capture at the point-of-service. Data is stored in our secured cloud or in your servers. **An internet connection is not required to access electronic forms and collect data!**

Our customizable Out-of-the-Box wireless data collection solutions and Dashboard deliver current, historical and predictive trends of business operations that *increase* safety and OSHA, HIPAA and DCAA compliance; efficiencies; communications; accountability; quality controls; immediate data access and profits. **GO GREEN!**

WHAT WE DO: EDCI empowers businesses to **GO PAPERLESS** with its robust custom mobile data collection platform and unlimited applications. Management can verify and manage field/mobile staff's time and attendance; efficiently collect and track critical field data; monitor assets data such as inventories and inspections; including performance of vehicles, parts, products, and people (i.e. subcontractors, vendors, staff), **in real time!**

EDATAVORTEX™ UNLIMITED SCALABILITY

EDCI's eDataVortex™ Enterprise Grade Platform was designed and developed to be easily used and customized with unlimited applications, Users and assets in the field. Data such as observations, assessments, audits, inspections, tasks, events) is effectively captured for immediate sharing and compliance with operations and regulatory agencies requiring accurate electronic audit trail. Features include:

- ▶ Analytics and custom Reporting
- ▶ GPS, Wi-Fi, Barcode, RFID, NFC technologies
- ▶ Captures signatures & drawings
- ▶ Photos, videos & audio
- ▶ Drop down option list & detailed screens
- ▶ GPS & map locations
- ▶ Cascading list, drill down details
- ▶ Auto pushes new tasks to other devices
- ▶ Comprehensive user permission –avoids data alteration
- ▶ Work Orders & Invoicing
- ▶ Project Management & Scheduling Module
- ▶ Customer Relationship Management (CRM) module
- ▶ Human Resources (HR) module

OUR CLIENTS: EDCI's clients are successfully using its software (i.e. Fulton County Administration in 120 buildings within the City of ATL, the Armstrong Group De Mexico using for tracking security of hundreds of HBDC Banks in Mexico, Calvert Memorial Hospital, and Recorded Books LLC).

OUR SUCCESSES: EDCI was awarded business of the year by the MBDA Business Center in ATL in 2012. EDCI was nominated in 2013 to compete for the Excalibur Award by the Technology Association of Georgia.
