**TEACHERS MAKE
A DIFFERENCE**

**But, at times, the difference
you make doesn't seem to be**

MAKING THE GRADE

Parents or supervisors can take something the wrong way... a parent makes an accusation... a teacher leaves the class unattended to take a student to the office... an unexpected emergency or event occurs and you have to make a split-second decision... The possibilities and risks are never-ending. *In a few seconds*, something unfortunate can happen. No one ever thinks it will happen to them, but it does, and that's precisely why Educators First is here. Are you protected?
