

CONVERGENCE OF WORLD WARS

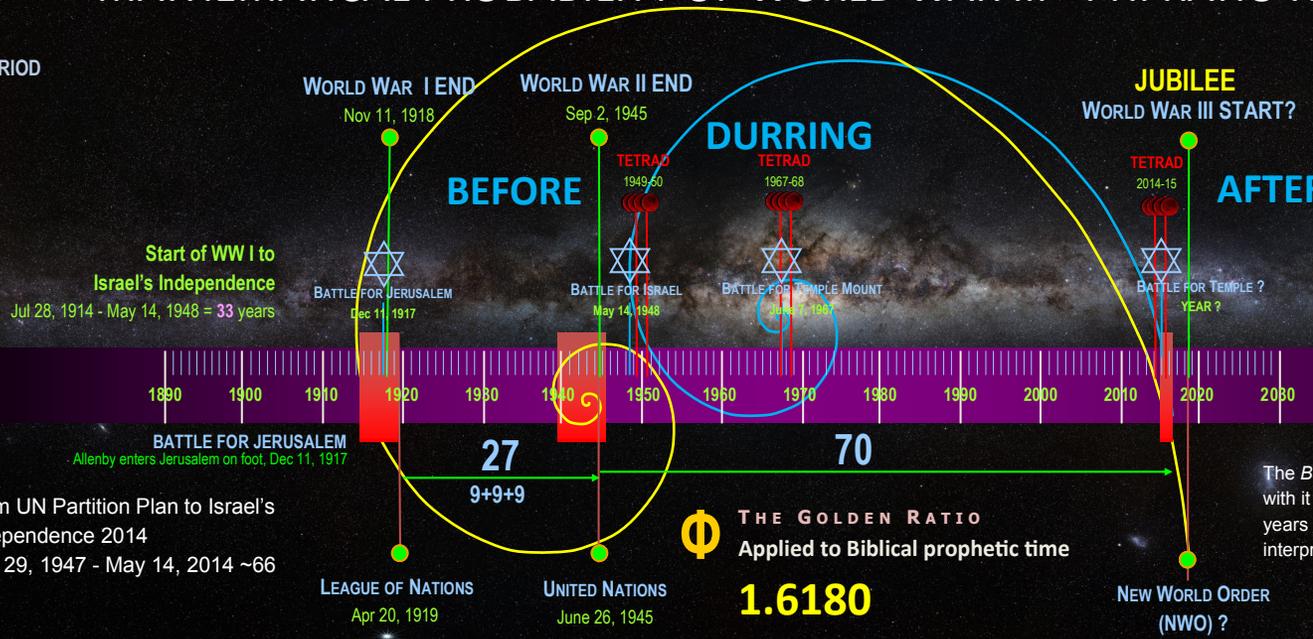

This illustration presents the theory that the phi ratio mathematical irrational number can be applied to time in light of Biblical prophecy. This ratio occurs throughout all of YHVH's creation from the macro level of the spirals of the galaxies to the spiral so hurricanes and proportion of the human body. It is applied in art and architecture as well. Moreover, this phi ratio is thus suggested to be applicable in the development of time and space itself. Not only is the phi ratio seen in creation but appears to approximate the key and pivotal schedules of YHVH's timeline of prophetic events. This mathematical pattern is seen in eclipse patterns to the very holy Feasts of YHVH. Thus using this mathematical template of time and progression, perhaps it is a key in helping determine what is still to occur approximately in time, prophetically. The following is a convergence of several prophetic timelines demonstrating the phi ratio template related to the probable timeframe of when the 3rd World War is to occur.
