Severe Brain Injury
Long-Term Care
and Family Support

Granite House, Inc. was created to fill an unmet need in our community by the parents of an adult son with a traumatic brain injury and a registered nurse who cared for him in his home.

Granite House, Inc. is a Federal 501(c)(3) tax-exempt Minnesota non-profit corporation.

MISSION
Our mission is to provide support and hope to individuals and families who are living with severe and permanent brain injury.

PURPOSE
Provide an environment and social interactions that enrich the lives of individuals with severe brain injury.

The Granite House residence gives families an alternative to traditional long-term care or care at home.

Granite House offers a support network for families and advocates for people who cannot speak for themselves.

A place for families to heal
Enriching the quality of life for individuals with severe brain injury

ADVOCACY
Reality: There are many young adults in nursing homes, living long lives with permanent brain injury.
- There is a lack of available housing
- They are not receiving appropriate services in long-term care facilities
- Families need a place to heal and receive support

SUPPORT GROUP
Granite House serves as a unique resource to our community and to those touched by brain injury, offering education, support groups, resource referrals and volunteer opportunities.

Our support group for families meets at Como Conservatory in St. Paul. Contact Carol for more information at carol@granitehousemn.org.

24-HOUR COMPASSIONATE CARE
Granite House offers a home-like setting for the long-term care of people who are not likely to emerge from a minimally conscious state, but are stable and responsive to external stimulation.

RESIDENTS
Our residents will be medically stable adults who are minimally conscious, require a wheelchair and are nonverbal due to a traumatic or acquired brain injury.

LOCATION
The Granite House residence is located near Stillwater, Minnesota. Massive oaks and maples surround the building site, providing a peaceful and beautiful setting.

DONATE
Your gift will help us to build Granite House and offer sustainable support for our residents, their families, and the wider community affected by traumatic brain injury.

Checks can be mailed to our P.O. box, or secure online donations can be made from our website.

FEATURES
- Private bedrooms
- Open plan for wheelchair access
- Great room and large screened porch
- Hydrotherapy tub and roll-in shower
- Outdoor access to yard and garden paths

SERVICES
- 24-hour supervision
- Full assist with all activities of daily living including music and massage therapy
- Physician-directed weight-bearing and range of motion exercise in therapy suite

Granite House will be a qualified provider for the Minnesota Department of Human Services. Our residents will receive benefits on the Community Access for Disability Inclusion (CADI) waiver. This waiver program is designed to allow people who require nursing-level care to live in the community rather than in institutions.
