

SPRING EQUINOX NEW YEAR

DETERMINING NISAN 1 BASED ON ASTRONOMICAL MARKER

The purpose of this illustration is to depict the Astronomical Start of the 1st Month. It is predicated on the Notion of having the 1st New Moon pegged to the Spring Equinox in March. It has been stated that such Historical Sources as Josephus attested to the fact that the Sun was in the Constellation of Aries to corroborate it as being the Month of Aviv or 'Spring'. However, due to the Precession of the Equinoxes, as the Earth's Rotation Wobble fluctuates, the current Position of the Sun is now in Pisces on the 1st Day of the Spring Month, Aviv or Nisan. One is supposing that the True Date of Jesus' Crucifixion, Death, Burial and Resurrection occurred during Passion Week starting with the Triumphal Entry and the 4-Day Examination of the Lamb 4 Days prior on April 10, 32 AD.
