

Requirements for Training for Medication Assisted Treatment as Part of the MATE Act

March 27, 2023

U. S. Department of Justice
Drug Enforcement Administration
8701 Morrisette Drive
Springfield, Virginia 22152

*The following outlines the requirements for training for **Medication Assisted Treatment as part of the MATE Act**, which was part of the **Omnibus Bill** at the end of December 2022. DEA was given 90 days to let practitioners know how to meet the MATE Act's training requirement which is tied to their initial or renewal DEA registration **beginning on June 27, 2023**. This letter provides the information to the practitioners as to how they can meet those training requirements. It is also posted on our website at the following link: [Informational Documents](#).*

Dear DEA Registrant:

On December 29, 2022, the **Consolidated Appropriations Act of 2023** enacted a new **one-time**, eight-hour training requirement for all Drug Enforcement Administration (DEA)-registered practitioners on the treatment and management of patients with opioid or other substance use disorders. Below is information on this new requirement.

Who is responsible for satisfying this new training requirement?

- All DEA-registered practitioners, with the exception of practitioners that are solely veterinarians.

How will practitioners be asked to report satisfying this new training requirement?

- Beginning on June 27, 2023, practitioners will be required to check a box on their online DEA registration form—regardless of whether a registrant is completing their initial registration application or renewing their registration—affirming that they have completed the new training requirement.

What is the deadline for satisfying this new training requirement?

- The deadline for satisfying this new training requirement is the date of a practitioner's next scheduled DEA registration submission—regardless of whether it is an initial registration or a renewal registration—on or after June 27, 2023.
- This one-time training requirement affirmation will not be a part of future registration renewals.

How can practitioners satisfy this new training requirement?

There are multiple ways that practitioners can satisfy this new training requirement.

- First, the following groups of practitioners are deemed to have satisfied this training:
 - **Group 1:** All practitioners that are board certified in addiction medicine or addiction psychiatry from the American Board of Medical Specialties, the American Board of Addiction Medicine, or the American Osteopathic Association.
 - **Group 2:** All practitioners that graduated in good standing from a medical (allopathic or osteopathic), dental, physician assistant, or advanced practice nursing school in the United States within five years of June 27, 2023, and successfully completed a comprehensive curriculum that included at least eight hours of training on:

- Treating and managing patients with opioid or other substance use disorders, including the appropriate clinical use of all drugs approved by the Food and Drug Administration for the treatment of a substance use disorder; or
- Safe pharmacological management of dental pain and screening, brief intervention, and referral for appropriate treatment of patients with or at risk of developing opioid and other substance use disorders.
- Second, practitioners can satisfy this training by engaging in a total of eight hours of training on treatment and management of patients with opioid or other substance use disorders from the groups listed below. A few key points related to this training:
 - The training does not have to occur in one session. It can be cumulative across multiple sessions that equal eight hours of training.
 - Past trainings on the treatment and management of patients with opioid or other substance use disorders can count towards a practitioner meeting this requirement. In other words, if you received a relevant training from one of the groups listed below—prior to the enactment of this new training obligation on December 29, 2022—that training counts towards the eight-hour requirement.
 - Past DATA-Waived trainings count towards a DEA registrant’s 8-hour training requirement.
 - Trainings can occur in a variety of formats, including classroom settings, seminars at professional society meetings, or virtual offerings.

What accredited groups may provide trainings that meet this new requirement?

- The American Society of Addiction Medicine (ASAM)
- The American Academy of Addiction Psychiatry (AAAP)
- American Medical Association (AMA)
- The American Osteopathic Association (AOA), or any organizations accredited by the AOA to provide continuing medical education
- The American Dental Association (ADA)
- The American Association of Oral and Maxillofacial Surgeons (AAOMS)
- The American Psychiatric Association (APA)
- The American Association of Nurse Practitioners (AANP)
- The American Academy of Physician Associates (AAPA)
- The American Nurses Credentialing Center (ANCC)
- Any other organization accredited by the Accreditation Council for Continuing Medical Education (ACCME) or the Commission for Continuing Education Provider Recognition (CCEPR), whether directly or through an organization accredited by a State medical society that is recognized by the ACCME or CCEPR
- Any other organization approved or accredited by the Assistant Secretary for Mental Health and Substance Use, the ACCME, or the CCEPR

We hope this information is helpful. For information regarding the DEA Diversion Control Division, please visit <https://www.deadiversion.usdoj.gov>. If you have any additional questions on this issue, please contact the Diversion Control Division Policy Section at (571) 362-3260.

Sincerely,
 Thomas W. Prevoznik
 Acting Assistant Administrator
 Diversion Control Division
