Flea and Tick prevention. 1 dose lasts 3 months!			

DENTAL CLEANINGS!

We are now proudly offering affordable dental cleanings to your furry friends. We require that your pet must already be spayed or neutered and be current on the core vaccines (3 for dog, 2 for cat). If you have recently had your pet fixed, we ask that you wait at least 3 weeks before scheduling their dental. We cannot do the dental at the same time as your pet's surgery as it will increase risk for infection. Other services offered are also available at the time of dental (microchipping, heartworm testing, felv/fiv testing, fecal exam, deworming, nail trims, anal glands)

Dog Dental

100

Teeth Cleaning under full anesthesia. Includes scaling and polishing.

Cat Dental

90

Teeth Cleaning under full anesthesia. Includes scaling and polishing.

**We do not offer teeth extractions or dental x-rays, but if your pet needs them, we can offer a referral to a primary care veterinarian. * Depending on the severity of your pet's dental disease, we may decline your dental procedure the morning of your appointment in order to refer you to a dental specialist.*

ADDITIONAL SERVICES/ITEMS

ADDITIONAL SURGICAL SERVICES

Dog Pregnancy Fee	25	Added Surgical Time	20
Cat Pregnancy Fee	15	Per 15 minutes (may be applied to cryptorchid, pregnant, or other at doctors discretion. We will always do our best to let you know if this will be charged for your animal before performing the surgery)	
Cryptorchid Fee Undescended Testicle	30-50		
Umbilical Hernia Repair	20	Capstar	5
		24 hour flea control- required if fleas are found	
Rear Dewclaw Removal	20 each		
Hind feet only, must not be attached to bone			
Baby Tooth Extraction	20 each		

ADDITIONAL MEDICATIONS

Antibiotics	20	Rimadyl	15
Sometimes needed if surgery site gets infected or pet's skin already has an infection.		Anti-inflammatory Pain medication	

FERAL CATS (TNR ONLY)

**These prices are in place to help with control truly feral cats that are to be Trapped, Neutered/Spayed, and Released (TNR). Ear tipping these cats is important so if they get caught it is clear that the cat has already been fixed without having to touch the animal and prevents unnecessary surgery. If you do not want ear tipping and are trying to make a feral cat a pet, please refer to cat services for pricing.*

**A feral cat may be brought in Mon-Thurs at 7am, no appointment needed. No more than two feral cats can be brought in by a client per day.*

**Each feral cat MUST arrive in a feral cat trap, one cat per trap (this is for their safety and ours). Cat traps can be borrowed from Cabarrus County Animal Control. <https://www.cabarruscounty.us/departments/animal-control>*

Feral Cat Spay
