SPENDING MORE TIME AT HOME?

- ***This is a great time to get your lawn in tip top shape.*** While you've been clearing the toilet paper from store shelves, we have been filling our store with all of your lawn care needs; grass seeds, weed and feed fertilizers as well as regular and organic fertilizers.
- ***Plant a garden.*** While we do not stock vegetable seeds, we can help you achieve the best garden. Stop in to pick up a soil sample bag with instructions. When you bring the sample back, a routine analysis only costs \$16.00 and only takes about 1 week for results. Our knowledgeable staff will help you identify what your soil needs; we carry fast acting lime and many varieties of fertilizers.
- ***Start a straw bale garden.*** We carry Straw bales, fertilizer and a free instructional pamphlet.
- ***Feed and watch the birds in your yard.*** Our Hohl's Premium wild bird seed is a must for bird watchers. This premium mix of; White Millet, Black Sunflower, Cracked Corn, Red Millet, Safflower, Re-cleaned Wheat, Course Sunflower Chips, Peanut Rejects, Nyjer and Starter Grit will attract a variety of birds to your feeding stations. We also carry a wide variety of bird and squirrel feeds and feeders.
- ***Start a food plot.*** If you live in the country and love to see wildlife, you can turn even a small ¼ acre area into a food plot to attract deer, turkey, pheasants and other wildlife.

Food Plot 101: Deer Country Trail Mix

Deer Country Trail mix was formulated to be a quick and easy establishing mix that can withstand full sun to more heavily shaded areas. It contains species that can perform better than others in areas such as logging roads and trails located directly in the woods. Keep in mind, broadleaves and grasses do need some sunlight to grow.

LIFE CYCLE: PERENNIAL
SEEDING RATE: 10 Lbs./Acre (Drilled)
15-20 Lbs./Acre (Broadcast)
BAG SIZE: 25 Lbs.

- 20% High Sugar Perennial Ryegrass
- 20% Berseem Clover
- 20% Intermediate White Clover
- 15% Crimson Clover
- 15% Creeping Red Fescue
- 10% Radium XL Alsike Clover

Lack of Fertilizer or Grub Damage?

Both nutrient deficiency and grubs can cause turf thinning and bare spots. Dig a 1 foot square and pull it back at a depth of 2". If you see grubs, that's your problem. Apply **Award Turf Fertilizer with Merit Grub Control 0.2**. This is the time of year to prevent Crabgrass as Step 1 of our 4 Step Lawn Care Process. The Grub control can be applied with the **Dimension Crabgrass Preventer**, after your 1st mowing.

If the damage is not caused by grubs, you likely need lime and/or turf food. You may stop in and pick up a soil test kit, but without a soil test, you are always safe to apply our 24-0-10 turf builder and if you haven't limed for over a year, use our **98G Pelletized Lime**. Both can be spread together.
