Pan Conveyors

From Deep Drawn Pan Conveyor to Apron Weigh Feeder: secure transportation of hot, abrasive, moist and delicate bulk materials or those to be dosed

Automated production processes often require stockpiling or mixing of raw materials, additives or semi-finished products. Bottlenecks in feeding or discharging hoppers, storage, stockpiles or silos can adversely affect the performance of the plant.

AUMUND Pan Conveyors (PDF)

The optimum design of the conveying and storage technology is the key, and AUMUND offers the appropriate Pan Conveyor for the application, adapted to the properties of the material to be conveyed:

PAN CONVEYOR TYPE KZB

BUCKET APRON CONVEYOR TYPE BZB

FLAT PLATE CONVEYOR TYPE FPB

PIVOTING PAN CONVEYOR TYPE SPB

APRON WEIGH FEEDER TYPE DPB
