

# THE YEAR OF JUBILEE

## PROPHETIC RESTORATIONS - JERUSALEM AS THE FULCRUM

The purpose of this illustration is to show the possible Jubilee Cycle Pattern on a timeline since Israel's rebirth in 1948. Since 70 AD, Old Jerusalem had not been under Jewish sovereignty until 1967. If the liberation of Jerusalem on June 7, 1967 is the key pivotal point in modern history related to Biblical eschatology and the End Times, then one can count from this date the Jubilee cycles and possibly ascertain the last Jubilee within the 50 and 70-year span of a Biblical generation. This pattern could very well herald the conclusion of the Church Age and the beginning of Daniel's 70<sup>th</sup> Last Week of Year the 7 year referred to as the Tribulation Period from 1966. The timeline seeks only to illustrate that the '48' years from 1967 gives calculates to the year 2015. The 1948-1967-2015 time interval is in approximate phi ratio proportion of time. Technically, this year is when the Jubilee is to be proclaimed. Prophetically, such a 'season' is heralding the coming 3rd Temple to be built soon thereafter. This illustration does not allude or project that Jesus Christ's 2nd Coming has to occur on a Jubilee Year nor does it necessitate the Rapture of the Bride of Christ as a precursor. In Leviticus, YHVH instructed the nation of Israel to count-off 49 years and on the 50th Year, proclaim a 'Jubilee Year'.

It was a time where all things reverted back to the original state and/or condition. This reset was to commence once Israel entered the Promised Land. Israel did not do that and as a result, Israel was exiled to Babylon for the 70 years or 10 years of 7s prophetic weeks. This time was for the Sabbaths owed since entering the Promised Land up until that time, ~490 years. Due to the difference in Jewish calendar counts, there is dissenting views on which date is the correct count to establish the Jubilee Year; modern Gregorian dates have been nonetheless superimposed. A Sabbatical Cycle is a period of 49 years, comprised of 7 years x 7 Sabbaths of Years. A Jubilee Year is the year following the 49th Sabbatical Cycle or 50th Year proclaimed on Yom Kippur of the previous year. For example, if 1917 was a Sabbatical Year, then 1918 would be the Jubilee Year, if 1966, then 1967 would be the Jubilee Year, etc. If the 49<sup>th</sup> year was in 2015, it would make 2016 (5776) the Jubilee Year. Could such a pattern mark when the 'beginning' of Daniel's 70th Week of Years is to commence? Could there be a 7-year precursor of time that would lead-up to 2022 that could usher the Tribulation Period?

If starting from the Capture of Jerusalem in 1967 then 1966 is the 49th year

1 Jubilee = 50th year or (7 counts of 7 years = 49 year + 1 year)

1	2	3	4	5	6	7
1966 + 7	+7	+7	+7	+7	+7	+7
1973	1980	1987	1994	2001	2008	2015

### JUBILEE TABLE OF YEARS SINCE CHRIST

Counting 49 Year intervals backward and forwards from Bench-Mark Year of 1967\*

Based on a Sabbatical Year Cycle

\*If 1967 marked the Jubilee Year Liberation of Jerusalem during the 6-Day War.

1. AD 6/7	8. 349/350	15. 692/693	22. 1035/1036	29. 1378/1379	36. 1721/1722
2. 55/56	9. 398/399	16. 741/742	23. 1084/1085	30. 1427/1428	37. 1770/1771
3. 104/105	10. 447/448	17. 790/791	24. 1133/1134	31. 1476/1477	38. 1819/1820
4. 153/154	11. 496/497	18. 839/840	25. 1182/1183	32. 1525/1526	39. 1868/1869
5. 202/203	12. 545/546	19. 888/889	26. 1231/1232	33. 1574/1575	40. 1917/1918
6. 251/252	13. 594/595	20. 937/938	27. 1280/1281	34. 1623/1624	<b>41. 1966/1967*</b>
7. 300/301	14. 643/644	21. 986/987	28. 1329/1330	35. 1672/1673	42. 2015/2016

**TABLE OBSERVATION**  
The last digits for the Sabbatical years are sequential in pattern from 0-9
