The PIT count should be completed using unduplicated counts or statistically reliable estimates of homeless persons in sheltered and unsheltered locations on a single night during the last ten days of January 2018.

HUD requires that PIT counts be conducted in compliance with HUD counting standards and related methodology guidance, as described in HUD's [PIT Count Methodology Guide](#) and [2018 HIC and PIT Data Collection for CoC and ESG Programs notice](#) available on the HUD Exchange. CoCs that are considering performing their required PIT count outside of the last 10 days of January must request a PIT count date exception from HUD. No HUD permission or exception is required for CoCs to conduct supplemental PIT counts.

- Persons counted in permanent housing, permanent supportive housing and rapid re-housing should not be included in the PIT count of homeless persons reported to HUD.
- Persons counted in any location not listed on the Housing Inventory Count (HIC) should not be included in the PIT count of homeless persons reported to HUD (e.g. institutional settings, residential treatment facilities, doubled-up with family or friends).

The gender category "Gender Non-Conforming" is intended to represent people whose gender identity is not "male, female, or transgender," and should not be used in the event that gender of a person is unknown. In the event gender, ethnicity, race, or Chronically Homeless status is unknown, CoCs should use approved extrapolation techniques to ensure that the total number of persons listed under each category equal the total number of persons counted. See HUD [Point-in-Time Count Methodology Guide](#) and [Point-in-Time Count Implementation Tools](#) page on the HUD Exchange.

It is important for CoCs to closely coordinate their HIC and PIT counts of sheltered homeless persons and report only those persons who are staying in emergency shelter, Safe Haven, or transitional housing beds/units identified on the HIC. The total number of persons reported in all emergency shelter, Safe Haven, and transitional housing projects on the HIC must match the total number of sheltered persons reported in the PIT Population tab in the HDX. Please refer to the 2018 HIC and PIT Data Collection Notice for additional information and instructions concerning HIC and PIT data collection.

Youth Populations and Veteran Populations data is a subset of the All Homeless Populations data. Veterans and Youth Populations and Veteran Populations data should be included in the All Homeless Populations data section.

^aIndividuals housed in Safe Havens on the night of the count should only be recorded in the "Safe Haven" column, NOT in the emergency shelter column.
