

**her name is Alice**

Alice

**ALICE**

turn off the music

come

downstairs

the mad hatter

ain't so bad

if you drink your tea

and take your meds

the queen of hearts

won't chop off your head

Alice are you feeling quite small

remember

"the ones mother gives you

don't do anything at all"

Alice

**ALICE**

turn off the music

come

downstairs

the trash needs to be taken

before the dump closes

we don't want to end up in jail

when the turkey needs basting

Alice  
we hear you singing  
the chorus in 2 part harmony

“you can get anything you want at Alice’s restaurant”

Arlo has left  
the restaurant closed  
and you’re up there  
in your robe

Alice  
dear Alice  
why do you stare  
there is no one out there  
he’s not coming back
