♦ **Selected Consultations**

- 2022 **Consultant. Various Opioid Treatment Programs, Maryland Department of Health, Behavioral Health Administration, Contingency Management Initiative.**
Maryland Department of Health, Behavioral Health Administration (MDH-BHA), awarded \$2.9M in contracts as part of Maryland's Contingency Management Initiative (CMI) through the Substance Abuse Prevention & Treatment Block Grant to the State of Maryland by the Substance Abuse and Mental Health Services Administration (SAMHSA). Served as expert consultant and provided technical assistance to three community-based opioid treatment programs to implement a contingency management mobile app (PROCare Recovery) within their existing program structure to improve treatment retention and medication adherence for patients receiving outpatient medication treatment with methadone or buprenorphine.
- 2019 – 2021 **Senior Health Outcomes Advisor. Thriving Mind South Florida, South Florida Behavioral Health Network, Inc.**
Thriving Mind is a non-profit managing entity responsible for administering \$140M in state safety net funding from the Florida Department of Children & Families as well as other Federal, State, County, and private sources for mental health and substance use disorder treatment and prevention services for uninsured residents of Miami-Dade and Monroe (Florida Keys) Counties. Thriving Mind oversees a network of 45+ community treatment providers, delivers payer-level care coordination, and conducts quality improvement initiatives for the southern region of Florida. Reported directly to Chief Executive Officer. Specific duties included leading and coordinating outcomes analysis and evaluation projects, data analysis, and collaborating with network agencies to develop and implement meaningful outcomes monitoring systems including key metrics and performance indicators.
- 2019, 2023 **Outcomes Consultant. BrightView Health.**
BrightView is a multi-site addictions treatment system offering outpatient and intensive-outpatient treatment services, including medication treatment for individuals with opioid use disorder, at 60+ facilities across five states. Developed a valid and reliable patient monitoring system capable of documenting treatment outcomes and providing clinically meaningful and actionable data to inform clinical care, quality improvement purposes, and future research studies. Conducted needs assessment to evaluate existing assessment practices, developed personalized measurement-based outcomes monitoring system compliant with national standards (e.g., The Joint Commission), and prepared final report with recommendations for routine practice and implementation.
- 2017 – 2020 **Chief Research Officer. AiRCare Health.**
AiRCare Health is a provider of cloud-based disease management care coordination solutions for chronic behavioral health conditions, including addiction. Reported directly to Chief Executive Officer. Provided vision, leadership, and direction for all research-related activities. Specific duties included designing, leading, and coordinating research and evaluation studies; analyzing large administrative claims data sets and conducting statistical analyses; disseminating research findings to scientific community and public in the form of peer-reviewed scholarly articles and professional conference presentations.
- 2016 – 2018 **Director of Research and Outcomes Studies. Satori Waters.**
Satori Waters is a drug and alcohol addiction treatment system offering a full continuum of care with multiple locations across South Florida. Designed, implemented, and managed all treatment outcomes evaluation efforts and related research activities across four residential treatment centers. Additional duties included development of key

outcomes and indicators, oversight of data collection, data analysis, and quarterly reporting to inform surveillance efforts, evaluate outcomes, and improve quality of care.

- 2015 – 2017 **Research and Evaluation Consultant. AiRCare Health.**
AiRCare Health offers disease management solutions including care plan management for substance use disorder patients transitioning from acute to continuing care. Evaluated effectiveness of a protracted telehealth and coordinated care plan management program on post-discharge adherence to continuing care plans and recovery outcomes among residential patients. Assisted in development of AiRCare™ treatment manual, and published scientific articles in peer-reviewed journals.
- 2012 – 2014 **Research and Evaluation Consultant. CRC Health Group, Inc.**
CRC Health Group is a national provider of treatment programs for adults and adolescents with behavioral health issues. Reported directly to Chief Clinical Officer. Led national evaluation effort of opioid treatment programs and identified demographic, clinical, and treatment variables associated with differential outcome expectations. Wrote White papers on clinical training topics of interest, as identified by Chief Clinical Officer, and published scientific articles in peer-reviewed journals.
- 2008 – 2014 **Research and Evaluation Consultant. The Change Companies.**
The Change Companies, a national publishing and training organization, develops evidence-based materials/curricula for prevention, treatment, impaired driving, criminal justice, and health care. Evaluated efficacy and effectiveness of Interactive Journaling® in reducing problematic behaviors (e.g., criminal recidivism, high-risk drinking) among high-risk populations (i.e., local jail inmates and mandated college students) with substance use issues, and published scientific articles in peer-reviewed journals.

Clinical Experience

2017 – Present **Licensed Psychologist. State of Florida (PY10022).**

2021 – Present **Program Director. Trauma Recovery Network, Thriving Mind South Florida.**

2014 – 2015 **Postdoctoral Fellowship. G.V. (Sonny) Montgomery VA Medical Center, Addictive Disorders Emphasis Area, Veterans Health Administration, U.S. Department of Veterans Affairs.**

Primary clinical training rotations included the *Addictive Disorders Treatment Program* (ADTP) and the *Substance Use and Posttraumatic Stress Disorder Treatment Program* (SUPT).

- ♦ ADTP offers treatment services for Veterans diagnosed with substance use disorders across multiple levels of care, ranging from standard outpatient treatment to 16-bed residential program. Clinical responsibilities within Substance Abuse Residential Rehabilitation Treatment Program included conducting comprehensive biopsychosocial assessments, serving as Treatment Coordinator (i.e., intensive case manager) for individual patients, participating in weekly interdisciplinary treatment team meetings, and providing individual and group therapy services. Group therapy services included facilitating mindfulness-based and cognitive-behavioral relapse prevention skills groups. Clinical responsibilities within outpatient program included providing individual therapy for patients with co-occurring disorders and facilitating weekly cognitive-behavioral anger management group.

Clinical Supervisors: Daniel C. Williams, Ph.D.; Andrew C. Voluse, Ph.D.

- ♦ SUPT Program provides assessment and treatment to Veterans with co-occurring substance use and PTSD. Individual and group-based interventions are available for Veterans who have experienced combat and/or other traumas (e.g., child abuse, military sexual trauma). Conducted routine intake assessments and provided individual and group therapy using exposure-based and cognitive processing approaches for PTSD, as well as 12-step and cognitive-behavioral therapy for substance use disorders.

Clinical Supervisor: Kevin M. Connolly, Ph.D.

2013 – 2014 **Predoctoral Clinical Residency. Metropolitan Detention Center–Los Angeles (MDC-LA), Federal Bureau of Prisons, U.S. Department of Justice.**

Primary clinical training rotations included specialty areas of *Forensic Evaluation*, *Severe Mental Health*, and *General Population*.

- ♦ **Forensic Evaluation.** Psychology Services at MDC-LA is designated as one of the Forensic Study Centers in the Federal Bureau of Prisons system. Conducted court-ordered forensic evaluations on inmates from all over the country and wrote

comprehensive psychological reports using multi-method approach to opine competency to stand trial, criminal responsibility during the commission of an offense, and other evaluation questions posed by the court. Evaluations involved the administration and interpretation of a full battery of tests, including measures of intelligence, personality, achievement, effort, psychopathy, malingering, and neuropsychological and legal competency functioning.

Clinical Supervisor: Lisa Hope, Psy.D.

- ♦ **Severe Mental Health.** The Severe Mental Health rotation focused primarily on inmates housed on Special Programs Unit (SPU), which serves as placement for inmates on formal suicide watch precaution status and inmates diagnosed with serious mental illness or medical conditions that require increased supervision or monitoring than afforded on general population housing unit. Conducted routine mental status evaluations and suicide risk assessments, and provided crisis intervention, case management, and brief psychotherapy in preparation for successful transition to general population housing, if applicable. Facilitated various cognitive-behavioral groups, managed all operations for telepsychiatry clinic for inmates in need of pharmacological intervention, and provided consultation to correctional staff concerning conflict negotiation and resolution, suicide prevention, and management of inmates with serious mental illness. Group therapy services included life skills psychoeducational group for inmates with serious mental illness as well as all drug and alcohol use programming in the institution.

Clinical Supervisor: Samantha Shelton, Psy.D.

- ♦ **General Population.** The General Population rotation focused primarily on the provision of general mental health services to inmates. Screened and assessed mental health needs of newly admitted inmates, referred inmates for psychiatric consultation, conducted brief supportive counseling for adjustment concerns, provided crisis intervention and case management, and responded to inmate requests to staff for mental health services. Provided consultation to correctional and medical staff, facilitated the Psychology Services module of the Admissions & Orientation Program for designated inmates, provided in-service trainings for staff, managed the institution's Suicide Prevention Program, and served as panel member for pre-employment interviews for the institution.

Clinical Supervisor: Rebecca Delgado, Psy.D.

2012

Clinical Practicum. St. Christopher's Addiction Wellness Center.

Conducted intake evaluations of new admissions presenting for detoxification and/or residential addictions treatment and communicated with insurance companies regarding reimbursement for treatment services. Co-facilitated daily 12-step group therapy for residential treatment patients.

Clinical Supervisors: Arlene Magee-Gann, LPC; Amy L. Copeland, Ph.D., M.P.

2011 – 2013

Clinical Practicum. Louisiana State University Psychological Services Center.

Conducted intake evaluations, administered psychological tests, wrote comprehensive reports, and provided individual therapy for students and community members with various psychological disorders. Conducted alcohol assessments and implemented brief motivational interventions (BASICS; CHOICES) for mandated high-risk college student drinkers referred due to violation of university policies on alcohol use.

Clinical Supervisor: Amy L. Copeland, Ph.D., M.P.

- 2010 – 2012 **Clinical Practicum. Earl K. Long Medical Center, Louisiana State University Health Sciences Center.**
 Conducted outpatient psychological assessments and inpatient consultations upon physician referral. Wrote comprehensive reports for specialty medical treatment teams and provided individual therapy for patients with various mental health conditions.
 Clinical Supervisor: Glenn N. Jones, Ph.D., M.P.
- 2010 – 2012 **Clinical Practicum. Louisiana State University Mid-City Clinic, Louisiana State University Health Sciences Center.**
 Conducted psychological assessments and provided individual therapy for patients presenting for early-intervention HIV treatment. Screened patients for HIV dementia and various mental health conditions, assessed patient competence and suicidal/homicidal risk, and constructed treatment plans as part of integrated HIV treatment team.
 Clinical Supervisor: Glenn N. Jones, Ph.D., M.P.
- 2009 – 2011 **Clinical Practicum. Anxiety and Addictive Behaviors Clinic, Louisiana State University Psychological Services Center.**
 Conducted intake evaluations, wrote comprehensive reports, and provided individual therapy for students and community members with anxiety and/or addiction-related issues. Facilitated weekly substance use disorder group for victims displaced to Baton Rouge by Hurricane Katrina through Neighbor's Keeper, a non-profit organization that works with Capital Area Alliance for the Homeless.
 Clinical Supervisor: Amy L. Copeland, Ph.D., M.P.
- 2009 **Youth Care Worker. Hawthorn Heights, Mountain Youth Resources.**
