GROZONE TEMPERATURE CONTROLLERS

GROZONE's TP1 and TP2 Day/Night Temperature controllers set the industry standard in quality, reliability and ease-of-use for indoor gardening controllers. Simply set your day and night temperature on the dial, and the controller does the rest for you – always maintaining your garden temperatures within 4 degrees of set points. On the GROZONE TP2 Adjustable Differential Temperature Controller your temperature differential can be set between 4 and 20 degrees. The GROZONE TP3 High- Temperature Shut-Off Controller is the answer for ultimate dependability in managing your indoor garden temperature.

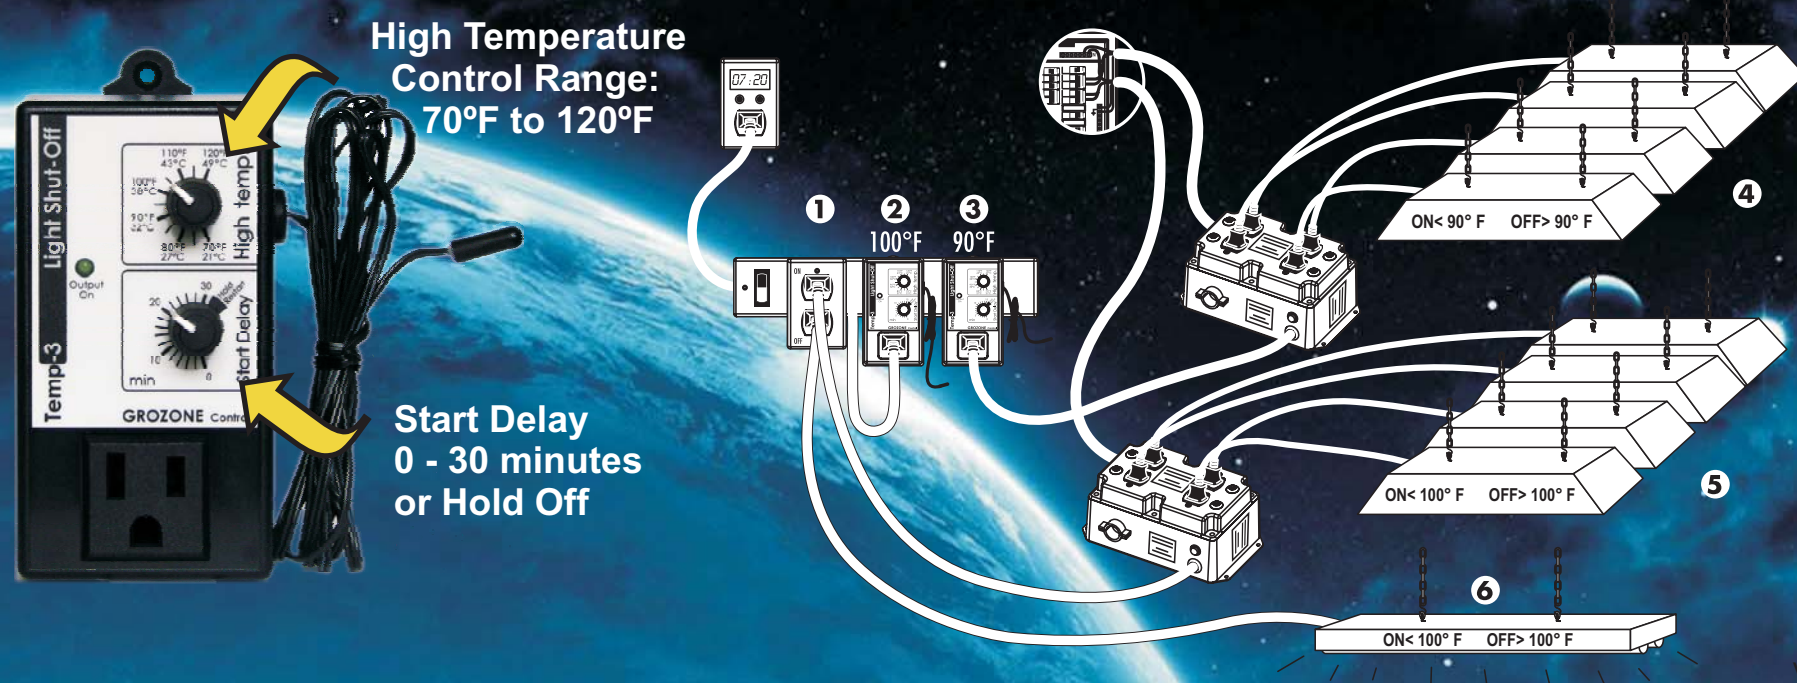

TP1 : Day/Night Thermostat

TP2 : Adjustable Differential Thermostat

TP3 : High-Temperature Shut-off Thermostat

Example Set-Up of a Closed Room:

Two groups of lamps (4, 5) are monitored for high temp conditions by two GROZONE TP-3 Controllers (2 and 3). Group 4 lamps are set to shut-OFF above 90°F while group 5 lamps shut-OFF above 100°F. The fluorescent lighting (6) connected to OSW (1) remains lit to maintain photoperiod.
