

FREE TRAINING FOR SMALL SYSTEMS

Setting Effective Rates and Accessing Funding

April 5-6, 2021
9:00 AM – 12:00 PM

These sessions will be conducted online, and CEU's provided for certified operators as well as Professional Engineers.

AWWA and USDA invite Smaller Systems to attend this free workshop over two days.

Workshop participants will learn how to assess revenue requirements, identify the community's financial priorities, and build rates that fit your situation and objectives.

All participants receive dedicated, follow-up technical assistance and helpful documents from AWWA.

Session 1 – Setting Effective Rates

- Assess Your System
- Identify Community Priorities
- Build rates that fit your situation and objectives

Who should attend:

- Municipal Officials (engineers, clerks, treasurers)
- System Board Members
- Operators
- Consultants who work with small systems

Day 2 System Optimization and Accessing Funding:

- Overview of the AWWA Partnership for Safe Water Programs
- How to conduct a self-assessment in order to optimize your operations
- General Management/Administration, Finance, Asset Management, Source Water Protection and Distribution System Operations.
- How to apply for low interest funding through the USDA. (a representative from your local USDA office will present this information and answer any questions you may have)
