

Fresh Gallery

Join us on October 2nd, 3-5 pm, for Cheryl's and Sarah's artist reception!

OCTOBER FEATURED ARTISTS

Cheryl Vowels

I have always been mesmerized by glass. The beauty that can be realized by taking such a hard, inanimate object then by molding, shaping, applying heat or just by cutting and placing, to create such beauty or evoke a feeling, are completely awe-inspiring. I began my journey into this glass world over 40 years ago by simply taking one class I was hooked. I started in the traditional methods but now my soldering pieces are of the contemporary nature utilizing the Tiffany copper foil method. My love of nature compels me to utilize stones, agates, shells, and anything I can wrap in copper. I let the glass and the pieces dictate the design and it is when these connect that something truly beautiful is formed.

Sarah Griggs

I grew up in the rolling hills of rural Osage County in Oklahoma. My love for photography was inspired by that beautiful place, and I carry it with me wherever I go. I am drawn to finding those moments of peace in a world of chaos.

Being a photographer and mixed media artist allows me to combine two of my favorite things, Photography and Painting. This combination can really bring it to life, add another dimension, and create a unique piece of art.
