

## RehabPro Standard Pulleys (A-Series)

**Introduction:** RehabPro Standard Pulleys, with its accessories, are considered one of the most versatile pieces of rehab equipment to improve tissue tolerance to physical load. Rope adjustability, low starting resistance and flexible base options offer the greatest number of exercises in the least amount of space.

### Applications:

1. Assistive & resistive rehab of the entire body with respect to circulation, flexibility, coordination, endurance & strength.

Single Free-Standing

Double Wall Mount
