Laura:

Consistent with our meet and confer discussion this morning, attached is a stipulation which, if agreeable to your client, should resolve this pending dispute regarding the inspections.

Please excuse any formatting issues in the stipulation. As you know, we are both at depositions in this case and I had to work off of a template that did not allow me to format this the way I normally would. If the document is acceptable, my office will fix any formatting issues and circulate a to be filed pdf copy for final approval.
