

ProTVSolutions introduces the next generation of their patented Stealth Remote Prism™

A fully hidden IR Receiver specifically designed for hospitality.

If you have IR Receiver's mounted on your TV bezel, then you need Stealth Remote Prism™, which is mounted out of sight on the back of the TV.

DO YOUR GUESTS THINK THERE'S CAMERAS IN YOUR ROOMS?

If so, You're not alone.

REST ASSURED WITH REMOTE PRISM™

The Stealth Remote Prism™ is a fully HIDDEN IR Receiver, that is guaranteed to solve the camera problem. Now available for all Cable Systems, DIRECTV AEP & DRE, LG STBs and many others.

- Stealth is a low cost, direct replacement for the scary IR "Camera" installed on the front of your TV.
- Stealth installs in less than 1 minute and is guaranteed to be fully hidden and never fall off.
- Almost 2 MILLION Remote Prism's already installed in hotel rooms across the country.

Key Features

- Does not look like a camera! Fully hidden.
- Eliminates guest complaints and unease.
- Low cost, quick and easy to install.
- High performance & high reliability IR Receiver, functions better than all of the competition.
- Provides corner to corner room coverage.
- Permanent adhesive, will not fall off or get knocked off by house cleaning
- Eliminates costly tech support calls
- Detachable 1m cable to fit most Set Back Box installations. DIRECTV DRE has 2m cable.
- Now RoHS compliant
- Stealth Remote Prism has Multiple Patents and is already installed in almost 2 million hotel rooms across the US.
