## Summer Program Services

**Summer 2021 (Beginning in May through August)**

### Overview

Summer services may be more important than ever in 2021! Parents may find it necessary to arrange supplemental services for their child to assist with the transition to in-person learning in the Fall, or adding behavior support services and tutoring services to help compensate for progress lost during the COVID-19 crisis. We are here to help in meeting those needs for children and families!

### Goals

1. **Collaboration with Parents or School districts.** To provide children with an opportunity to learn, retain, and maintain skills, as well as, prosocial behaviors despite being negatively impacted by COVID-19 restrictions.
2. **Preparation of children for the demands of the next school year.** To provide each student enrolled in summer services with “in person” instruction, guidance, and support, whether it be academically, behaviorally, or socially; preparing them for the demands of the upcoming 2021-22 school year.

## Summer Services Available through SpectrumCare

**Eligibility is determined by:** 1) The spots available per location, and 2) The initial consultation (conducted by phone or remote meeting) with the student's parents to determine if SpectrumCare ESY services would be a good fit in meeting the student's needs.

**Age of students eligible:** preschool up to 12 years

**Location of "in person" services:** home, school, or our clinic locations

**Length of Services:** The length sessions and duration of services will be individualized to meet the student's needs, during the months of May-August 2021

**Funding sources accepted:** A service contract with the student's school district, or private pay per session, or in some cases, medical insurance may fund services when deemed "medically necessary" for the student's disability.

**Deadline for enrollment:** The end of business on April 30th.

**Scope of the ESY available services:**

- General Education tutoring by subject
- Special Education tutoring by subject or IEP goal
- Occupational Therapy services
- Communication and social skills programming (one on one and/or small group)
- Behavior Support Assessment and Planning
- Behavior Intervention Plan implementation with parent training and support

**Call or email us today to schedule a Summer Services  
consultation session for your child TODAY!**
