Greetings Students:

Here is one way to consider the business of going to school. Education is like money--hard to get enough and painfully missing if you have too little. Like money, education can be gained over a lifetime and each amount earned can add to your independence--the freedom to do as you wish. Earning knowledge is hard work.

Study and a thirst for ideas and facts is essential. The end result is educational growth--a springboard for financial independence.

To Steer Staff:

It is my pleasure to extend to each of you a heartfelt expression of gratitude for the production of this fine yearbook.

Your efforts are certainly appreciated and I am certain you have gained some worthwhile experience in working on this project.

The healthy attitude you have displayed in providing this worthwhile service to your school is most commendable. It is my hope that you will continue to foster high ideals and make worthwhile contributions to the betterment of your community.

Yours very truly,

A black and white photograph of a weathered wooden post standing vertically. At the base of the post, a metal hook or bracket is attached to the ground. A piece of wood is wedged between the hook and the post. The ground is covered with dry grass and twigs. At the top of the post, there is a white, torn-edge banner with the word "ORGANIZATIONS" printed in bold, black, sans-serif capital letters. The banner has a rough, hand-cut appearance with frayed edges.
