

Guild members,

Over the last couple of years, we have done several different monthly projects and UFOs and they have worked well for us as a group. With that in mind we would like to start a monthly/seasonal pot holder/oven mitt project. Anyone who participates by making a themed pot holder/oven mitt can bring it to show and tell each month and or send a picture to Kitty for her to post on our website. Names will be entered into a drawing each month for prizes. Some ideas are listed below, but you are encouraged to use your imagination and create anything that can be used as a pot holder and corresponds to that particular month. This is not an exchange. We will make and keep our own. I am excited at all the possibilities from our talented group.

Thanks in advance for you hard work.

Lynn Kennedy

January – Snow, winter (I realize we are finished with January but they will be accepted)
