

PISCAN CODE OF THE RAPTURE

TOTAL EQUINOX DECREE OF THE CHURCH AGE

The purpose of this illustration is to depict just how close the Rapture of the Bride of Christ that is based on that of Elijah and Jesus' Rapture pattern. This study will present the theory that a 3rd Rapture to coincide with the end of the Church Age will occur and that it is based also on the phi ratio of time since Elijah and Jesus that approximates the timing of when the end of the Church Age is to conclude. The study will further present the notion that the Church Age is encoded in the very depiction of the astronomical Sign in the Heavens of Pisces. This investigation will attempt to show that the typology of Pisces is prophetically measured to the timing of when the Church Age commission is to end and thus when the Rapture of the bride is to occur. The timing of this 3rd Rapture since Elijah is to presumably conclude the Church Age and perhaps is somehow connected or associated astronomically to the Equinox Eclipse Pattern. One of the main suppositions of this study is that the constellation of Pisces will be likened to the trajectory of the resurrection of Jesus Christ as one of the Fish of the constellation that is going up. The other Fish depiction will be likened to that of the Church Age going out.

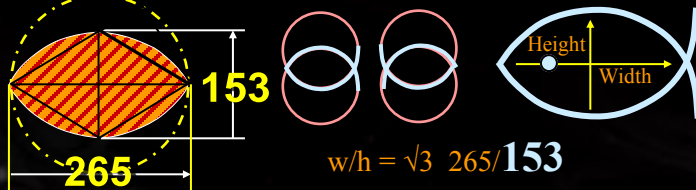

THE CHURCH AGE

The 2 Fish of the constellation Pisces make up the entire segment of the Mazzaroth that also encompasses the Band, which is the chord that binds the 2 Fish together at the subjugation of Cetus, which is Leviathan or a depiction of Lucifer, the god of this world. The other association with Pisces will be that of the Rapture and perhaps the Rapture timing as this study also suggests.

The Pisces constellation in this correlation inference could be marking the time of segments of the progression of the Church Age throughout time since Jesus Christ's ascension. This notion is tied directly to the pattern of the Equinox eclipses that occur specifically in Pisces and will show that there is a progressive segment of time or astronomical positioning along the band of the 2nd Fish that is going out and adjacent the mounting of Pegasus.

This theory that the Church Age with its beginning to include the Ascension of Christ and subsequent indwelling of GOD the Holy Spirit 10 days later will have its termination soon if what the pattern suggests is valid and reliable.

A TYPE OF THE OF RAPTURE THE BRIDE OF JESUS

[120 Cycles of Time x 50 Pentecosts] = 6000 years

Fish caught 153 code: [153 Fishes - 120 Disciples] = 33

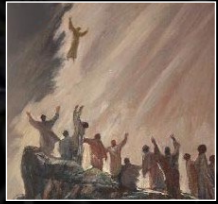

153 = 1 + 5 + 3 = 9 or (3 + 3 + 3)

153 + 120 = 273 - 265 = 8

(8 = Resurrection & 2 'circles' of Vesica)

THE ASTRONOMICAL RAPTURE

The constellation of Pisces is aligned as horizontally with the Ecliptic. When this occurs, the 1st Fish of Pisces stands upright and the 2nd Fish is configured at a 45 degree angle adjacent the back of Pegasus. The timeline since Christ of the specific Equinox Eclipses appear to be synchronized to the span of space in-between the 1st Fish and the 2nd Fish of Pisces. This study presumes the Ascension of Jesus to be in 32 AD. This study suggests that the constellation of Pisces has a celestial approximation of the phi ratio proportions to it. Concerning the Equinox Eclipses, the majority since Christ occur starting at the point from where the phi ratio spiral originates on the Ecliptic.

'Men of Galilee, they said, why are you standing here staring into heaven? Jesus has been taken from you into heaven, but someday he will return from heaven in the same way you saw him go!' -Acts 1:11

MILLENNIAL AGE

The whole timeline of the Equinox Eclipses since Christ to the one on March 20, 2015 can also be pegged to its phi ratio proportion. This is assuming that the Crucifixion, Resurrection and Ascension happened in 32 AD. The other assumption is the time or date of Elijah's translation or Rapture on ~850 BC. This is why this study can only suggest an approximation of the 3rd Rapture to correspond to the end of the Church Age; the prior dates are in dispute. Nonetheless if this model and pattern is plausible, then given the approximate incorporation of the phi ratio equation, it would appear that the Church Age and the Rapture are for sure to occur in this generation. Having this in mind and context when one applies the phi ratio to the ascension or Rapture of Jesus to the time of the Equinox eclipse in 2015, the 2 segments of time can triangulate the 3rd timeframe. This 3rd timeframe happens to correspond to the approximate time when Elijah was also translated or Raptured. This phi ratio pattern will be depicted in the constellation Pisces that will show an amazing proportion of the 1st Fish going up and the 2nd Fish going out. What the 2 combined produces is a pyramid of sorts of the 1st Fish going up which represents Jesus' ascension.
