

6th Annual **flowtex** Cytometry Conference

Tuesday October 23, 2012

2012 Core Management Meeting

- 9:00-10:30 Organizing Committee Breakfast
- 10:30-12:00 FlowTex Business Meeting **New Committee Members Welcome**
- 12:00-1:30 Core Staff Forum & Luncheon (Tim Bushnell, Moderator)
- 1:30-2:20 Tim Bushnell: "Core Management: A Play in Five Acts"
- 2:20-2:50 David L Haviland: "What Every Diva Manager Should Know"
- 3:10-3:40 Joel M. Sederstrom: "Biosafety Update: Modularity for the Masses"
- 3:40-4:10 Karen Clise-Dwyer: "Cell Sorting & Biosafety at UT MD Anderson: Not everything's bigger in Texas"

Wednesday October 24, 2012

Clinical Session 1: Aspects of Clinical Lab Management

- 9:10-10:00 Doris Taylor: "Experiences from the Repository"
- 10:10-11:00 Kenneth Byrd: "10 most common deficiencies: CAP inspections"
- 11:10-12:00 Leroy Mell: "Business Aspects of Clinical Laboratory Management"
- 12:00-2:00 Lunch and **Platinum Vendor Session 1**
 - 12:20-12:50 "Identification, isolation and analysis of stem cells and their derivatives by flow cytometry" **Rosanto Paramban (BD Biosciences)**
 - 12:50-1:20 "SH800 - Simplicity from True Innovation." **Greg Veltri (iCyt)**
 - 1:20-1:50 "Integrating the Power of the Flow Cytometry and Multiplex to Study Weight Gain Induced Immunodysfunction" **Brian McFarlin (Millipore)**

Research Session 1

- 2:00-2:50 J. Paul Robinson: "Systems Approach to Flow Cytometry: Moving flow to the next level"
- 3:10-4:00 Ger van den Engh: "Studying phytoplankton with flow cytometry: following the flow of carbon and nutrients in the world's oceans"
- 4:00-4:50 Holden Maecker: "Profiling T cell responses by mass cytometry"
- 5:00- 6:30 Poster Session & Reception, 1st Floor Foyer, BSRB
5PM-6PM Poster Presentations: Presenters to be at Posters

Thursday October 25, 2012

Clinical Session 2: Standardization and the Texas Colloquium

- 9:10-9:50 Holden Maecker: "Human Immunology Project Panel Standardization"
- 9:50-10:30 Jeff Jorgensen: "Panel Standardization -Fallacy- Is spillover contributing to diagnosis?"
- 10:40-11:20 Standardization Effort Discussion (Jeff Jorgensen: Moderator)
- 11:20-12:00 CSI: Lymphoma and Leukemia (Jean Coviello-Malle: Moderator)
- 12:00-2:00 Lunch and **Platinum Vendor Session 2**
 - 12:20- 12:50 "Using the Green Laser to Enhance Your Multi-Color Flow Cytometry Panels" **Wendell Smith (eBioscience)**
 - 12:50-1:20 "The Impact of Sheath Fluid in Flow Cytometry used for Micro-Particle Analysis" **Pat Leinert (Leinco Technologies)**
 - 1:20-1:50 "Novel Apoptosis and ROS reagents from Molecular Probes" **Barbara Seredick (Life Technologies)**

Research Session 2

- 2:00-2:50 Tim Bushnell: "Cytometry: Photojournalism of Biology"
- 3:10-4:00 Melissa Landis: "Revealing Unique Characteristics of Breast Cancer Stem Cells"
- 4:00-4:50 Brian McFarlin : "Baker's Yeast Beta-Glucan: A Nutritional Countermeasure for Exercise-induced Immunosuppression?"
- 4:50-5:15 Poster Winners Announced & Event Wrap-up

FlowTex is proud to be an ISAC-associated Society
