## Our Mission

### To make a positive difference in the lives of children for our future

Our mission is to implement an integrated, high-quality and culturally enriched childcare service by providing a nurturing, safe, fun learning environment that reflects the values, interests and needs of the children, their families and the Aboriginal community.

## Our Program

### Daycare

The Daycare Centre is surrounded by a bay of windows that captivate rays of natural light and invite a spacious, bright environment. We offer a variety of Aboriginal content and materials to foster healthy social, physical, intellectual, cognitive, emotional, and spiritual development. In addition, we provide engaging and diverse activities, and learning agendas to expand a child's experience. We believe children learn through play. Here, they explore concepts of structured and spontaneous play. Early care and early learning instills positive long life experiences guided by nurturing and knowledgeable Early Childhood Educators.
