

Kittitas County Prehospital Care Protocols

Subject: PROTOCOLS FOR BLS - ILS LEVEL PROVIDERS

I. Basic and Intermediate Life Support Protocols

- A. Certified prehospital care providers practicing under the scope of authority of the Kittitas County Medical Program Director (MPD), shall operate in accordance with the following protocols:
 - 1. First Responders shall practice in accordance with the Washington State First Responder Field Protocols (revised September 1998).
 - 2. Emergency Medical Technician-Basics (EMTB) shall practice in accordance with the Washington State Basic Life Support Field Protocols for EMTB Trained Personnel (revised September 2005).
 - 3. Intravenous Therapy Technicians shall practice in accordance with the Washington State Intravenous Therapy Technician Field Protocols (revised July 2000).
 - 4. Intermediate Life Support Technicians shall practice in accordance with the Washington State Intermediate Life Support Technician Field Protocols (revised July 2000).

- B. State protocols shall be followed specifically, unless otherwise directed in DOH approved, county specific protocols and SOPs of the Kittitas County Medical Program Director.

Effective Date: June 2002

Medical Program Director: Jackson S. Horsley, MD
