

The Dondolino's standing frame was designed to be used in the everyday life contexts of a child's home. It can enhance the child's capacity to adapt to his surroundings and to interact positively with the world around him. The size 2 and 3 have an added chest support that is just as adjustable as the pelvic support.

Dondolino

The Dondolino is easily accepted by the child due to its bright colors. Children can begin enjoying the benefits of the Dondolino as small as 29". It also allows the child to interact with classmates at eye level, an alert position that promotes socialization.

Measurements in Inches

Dondolino	Size 1	Size 2	Size 3
Max Capacity	77 lbs	99 lbs	121 lbs
User Height	29.5 - 37	35 - 45	43 - 55
Unit Weight	37 lbs	50 lbs	55 lbs
