

The 2020 Mid-Atlantic Utility Conference

2020 Vision – Looking To The Future

TURF VALLEY RESORT, ELLICOTT CITY, MD * APRIL 6-8, 2020

February, 2020

Dear Utility Colleague:

We wanted to extend a personal invitation to you and your team of professionals and technicians who dedicate their work to delivering excellent drinking water and effective wastewater treatment for your customers and communities.

We are honored to invite you to the Chesapeake Section of the American Water Works Association (CSAWWA) 2020 Mid-Atlantic Utility Conference on April 6-8, 2020. The conference is designed by and for utility personnel and will serve as an excellent opportunity to learn and share with your peers. The theme this year is "2020 Vision – Looking to the Future" for delivery of drinking, storm, and wastewater services. Speakers from across the region and beyond, from utilities large and small, will present their unique ways of addressing the common challenges we all face.

It is critical that we forge strong relationships together as we confront the challenges of today and tomorrow. As our resources are stretched thin, discovering and implementing proven methods through collaboration, networking and learning will be key to overcoming these challenges.

Enclosed is a summary of our program topics and your colleagues who will be presenting. Having so many utility leaders eager to participate and share their experiences, speaks volumes about the need and benefits of collaboration and networking. Our last event was a resounding success, and we expect this year's program to be even stronger.

We'll be kicking off the event with an exclusive tour of Howard County's state of the art Little Patuxent Water Reclamation Plant. Attendee registration is now open, so make your plans to attend now.

You don't want to miss this conference -- looking forward to seeing you there!

Sincerely,

Chris Phipps, Director
Anne Arundel County, DPW
