

THE PYRAMIDS OF MADRID I

The purpose of this illustration is to suggest that the various localities around Madrid, Spain incorporate the Great Pyramid of Giza pattern. In this specific case, the Almudena Cometary appears to approximate the layout of the Grand Gallery that matches the M-23 motorway. The 'Pit' corresponds to the Sacred Family College area. It is suggestive but as the powers that rule and design the various layouts of their world capitals, they incorporate the motifs of their Mystery Babylonian religion. In the case of Madrid, as with many other world empire capitals, there are various pyramid layouts and have actual relics from Egypt itself. They are mostly obelisks and parts of temples as it is the case with the Temple of Debod that was moved from Aswan and rebuilt just north of the Royal Palace.

Great Pyramid Pattern

GRAND GALLERY

M-23 CITRA. ELE. ODENNEB

COLEGIO SAGRADA FAMILIA

BASE AEREA TORREJON

In the case of the Spanish Royal Air Force, the very ensign appears to suggest the winged disk of Assyria. This motif in turn was a depiction of a red Star Gate (Vulcan) to the star from which the entities came from that created the triple motif of the Pyramid City, the Face of Ala-lu and the Pentagon on Mars and on Earth.

Templo de Debod dedicated to ISIS

The other prominent pyramid layout involves the Spanish Air Force military base of Torrejon. The runway is the base of the pyramid and an oval is centered on the pyramid in 1:1:1 proportions. In a lot of cases around the world, the various Air Forces of nations are situated next to sacred ley-lines. In many bases, it is believed that secret experiments, alien technologies and abductions are carried out. Based on some eye witness accounts, even the experimentation with Stargates goes on.

PLAZA ORTEGA Y OBELISCO

Why the Great Pyramid pattern might be incorporated in the cemetery is that one theory suggests that the Great Pyramid was used as a teleporter of the soul to the stars, mainly Orion. Thus it stand to reason that the place of the dead could have a vehicle et to journey in the afterlife.
