TELEMEDICINE

March 27, 2020

The clinic of Dr. Myrna De Asis remains open to provide healthcare to those in need of medical care during the COVID-19 medical crisis.

We are doing our best to follow all the necessary precautions and guidelines as defined by the CDC, and in compliance with the proclamations of Governor Greg Abbott and Mayor Stephen Santellana to protect the patients as well as our staff and the public in these challenging and unprecedented times.

For those who are not able to get medical care face-to-face in the office, we are now offering Telemedicine. Telemedicine involves the use of your smart phone to do a video call to provide clinical services to patients without an in-person visit.

It's easy. Call us to schedule an appointment, and we will take care of everything else. During these challenging times, Medicare, Medicaid and most private insurance are covering these "Virtual Office Visit" the same way they are covering a regular face-to-face visit with your doctor.

The information regarding this COVID-19 Pandemic is fluid and changes constantly without notice. We will adapt based on new information and regulations as they happen. Thank you for your being engaged and we are all praying for everyone's health and well-being.

If you have any questions, please call us at (940) 763-8077. We are here to help.

Sincerely,

The Clinic of Myrna C. De Asis, M.D.
