Clean, effective extinguishing agent for Class B and C fires

Carbon Dioxide is an effective and clean gaseous extinguishing agent that does not leave any residue to clean up or damage equipment. These models are suitable for use on Class B and C fires.

These quality industrial fire extinguisher models are extremely versatile and ready to tackle flammable liquid and electrical fire hazards. They are ideally suited for indoor applications where delicate equipment or processes require a clean extinguishing agent.

Features:

- Heavy-duty chrome plated brass valve
- Stainless steel handle, lever and hose band
- Aluminum internal siphon tube
- Six year warranty
- Five year periodic hydrostatic test interval
- UL Listed and USCG Approved—Meets D.O.T. Requirements
- Easy-to-read two-piece nameplate
- 5, 10, 15 and 20 pound models available

B - Flammable liquids and gases
C - Live electrical equipment
