

FOR IMMEDIATE RELEASE

Euro Coin Exchange, the leading buyer of euro and Canadian coins in the U.S., announced the establishment of a cooperative relationship with Global Coin Solutions Inc. of Toronto, Canada.

Atlanta, GA -- Euro Coin Exchange, the leading buyer of euro and Canadian coins in the U.S., announced the establishment of a cooperative relationship with Global Coin Solutions Inc. of Toronto, Canada. The announcement followed closely the completion of a major transaction involving the processing of over CAD \$200,000.00 in coins which required the transportation of over four tons of bagged Canadian coins from New York City to Toronto. Euro Coin Exchange purchased the coins from the NYC Metropolitan Transit Authority and transported them to Toronto with the assistance of Global Coin Solutions, Via Mat International, and Brinks Canada.

Kenneth Mitteldorf, the founder of Euro Coin Exchange, made the announcement from the company's principal office in suburban Atlanta, GA. "Global Coin Solutions is a perfect trading partner for our business," Mitteldorf said as he thanked Scott Hutchings, President of Global Coin Solutions, for his assistance with the New York coin transaction. "The business of processing and repatriating foreign coins requires flexibility and creativity. No two transactions are ever the same. Our customers have different needs and requirements, and so often are pleased to learn of opportunities where they previously saw only problems. Global Coin Solutions has an uncanny ability to identify opportunities and solve problems for its customers."

Mitteldorf also expressed his enthusiasm Global Coin Solutions' focus upon charitable giving opportunities. "Euro Coin Exchange has historically encouraged its customers to support charities by donating their foreign currency to worthy causes, and by assisting charities in converting their own collections into dollars. Global Coin Solutions was established with charitable giving as the core focus of its business. Scott has an amazing ability to show large organizations how foreign coin collections can play a role in furthering their own charitable efforts, and then to support those organizations as they launch and develop their programs."

Mr. Hutchings established Global Coin Solutions after acquiring the Canadian assets of Coin Co International PLC after that company ceased its Canadian operations. Hutchings worked for several years in the foreign coin business, servicing major accounts such as Air Canada, Air Transat and Tim Horton's, and was excited when presented with the opportunity to continue serving those clients as the Chief Executive of his own business. Scott brings a unique perspective to the business, having previously helped build other small businesses as well as having over 13 years with Lenovo/IBM.

Founded by attorney Ken Mitteldorf in Atlanta, Georgia, Euro Coin Exchange has established itself as the leading North American buyer of non-collectable euro, British, Canadian and Swiss coins from individuals and businesses on the internet. In the U.S., the company buys foreign coins and paper money, including pre-euro paper money such as Deutsche Marks, Belgian francs and Spanish pesetas, and imports bulk U.S. coins from other countries.

ABOUT Euro Coin Exchange: Euro Coin Exchange is a web-based, mail-order currency exchange providing U.S. businesses and individuals a convenient way to sell their Canadian, British, euro and Swiss coins for a fair price. The company also buys old (pre-euro) paper currency. In addition, Euro Coin Exchange buys American coins and mutilated banknotes from overseas currency exchanges and other businesses, and assists those customers with shipping their bulk coins back to the U.S., clearing customs and arranging for secure transportation and deposit into an American bank.
