Rockstar Spray Tans Spa
Sun Zero Solutions Tan Like a Rockstar
Master Spray Tan Artist

I'm **Athena LeBon**, Founder of **Rockstar Spray Tans Spa** in Littleton, Colorado, and creator of **Sun Zero Solutions™ Tan Like a Rockstar**.

My journey into beauty began unexpectedly. After 12 years in IT and becoming a stay-at-home mom, I sought a way to feel radiant again without damaging my skin. Like many, I had been a devoted sun worshiper—baby oil, tanning beds, and hours outdoors—until a single spray tan in 2009 changed everything. The results were natural, beautiful, and skin-safe. I immediately knew this was more than just a tan—it was the future.

I immersed myself in the craft and received professional certification from a leading spray tan company that once served as the official spray tan provider for *Dancing with the Stars*. Over the past **15 years**, I've spray tanned **thousands of clients**, watching teenagers I tanned for prom return years later as brides. Through these experiences, I became known as a **Master Spray Tan Artist**, recognized for both technique and care.

But one challenge remained: the solutions. I tried nearly every professional formula on the market, yet none fully delivered the confidence I demanded for my clients. Some faded poorly, others caused streaks or undertones I couldn't stand behind. My artistry was strong, but the products didn't match my standards.

That's when I decided to innovate. With the entrepreneurial support of my family, I developed **Sun Zero Solutions™ Tan Like a Rockstar**. What started as a personal mission has grown into a professional-grade line built for **flawless, natural, and**

orange-free results. Our hero product, the **RAPID VIP Solution**, allows a 1–4 hour rinse time with an **orange-free guarantee.** To extend that experience beyond the studio, I created our **DIY violet-based mousse**, delivering professional results at home.

This brand was built on passion, persistence, and purpose. Our mission is clear: to **educate all generations** about protecting their skin while still enjoying the confidence of a radiant tan. UV-free tanning isn't just a trend – it's a movement toward **healthier beauty standards.**

At Rockstar Spray Tans and through Sun Zero Solutions™, we don't just deliver tans – we deliver **confidence, empowerment, and skin-smart alternatives.** Now, we're ready to partner with distributors who share our vision of making safe, luxury tanning solutions the new beauty standard.
