Animal Communication & Healings

SaRa

Animal Communication is a two-way conversation, using **Telepathic Energy** with any **Animal** to Receive Resourceful Information.

Animal Communication is used in the Assistance to aid the **Pet Parent** (Guardian) help their **Animal** in need.

If there is a behavior that your Animal is displaying that is out of the 'norm' per se, and the **Pet Parent** *isn't able* to communicate, then it is a bit harder to discern what their Animal is going through, and/or what they are trying to tell them, due to the lack of understanding or telepathic communication. By slowing down, tuning in and listening, we begin to understand the animal's feelings, as to then find a resolution of the issue that may be occurring.

When working with an **Animal** and their **Pet Parent**, we tune into the **Animal's Whole Life Story**. We **Review** their **Life-Records** (Akashic) and assess what may be causing the issue. When we tune-in, we can see if there is a **Memory in Motion** that is **Caught or Looping**. Once the Memory is **Revealed** through the **Reading**, we then discern how it is effecting the animal in their current situation. We then begin to help the animal **Energetically Release** anything connecting them through this **old Energy**, and then provide an **Energy Healing (Reiki)** to help calibrate and balance their **Chakras and Embodiment**. Like Humans, we have layers upon layers of memory stored within. So, for every layer lifted, there may be another. Though we have to know, we are **one step further in the advancement** of the situation or issue at hand.

- **Addressing Behavioral issues** ~ Is your Pet acting out and/or misbehaving in ways that they haven't before? Are they Urinating on furniture, carpet or other places? Are they hiding or going after anyone that may enter into the house? Is there an anxiety that has overcome your animal all of sudden, that wasn't there before? Have their eating habits changed? Are they more needy? These are only a few examples of what happens when "changes" occur and/or a **Cellular Memory** begins to open from their past. All these changes are connected to the Memories of something and/or are of the current situation they are living in now.
- **Animals are super Intelligent**. Usually they are trying to tell their **Pet Parent** that something has changed, and/or a memory of past life is in motion and needs to be **Revealed and Healed**. Or maybe another Animal has been brought into the family mix, and they may see something that *you may not see*, and/or are jealous or anxious about the changes occurring, and this may cause your animal to misbehave.
- **Illness, Death and Dying** ~ This is a most difficult time for the Pet Parent and family members. It is so hard to deal with the end of life decisions for your animal. Unlike humans, who can tell you their wishes of their dying needs, Animals are not as easily heard. *We can assist you in their wishes and needs in this difficult time.* We **Guide** you in **your decisions** on what you can do to

make them more comfortable, and how to help them in their **Transition** with **Comfort, Grace and Ease**, and we also help the **Pet Parent** with connecting to them in their **afterlife**.

- **Lost animals** ~ We help you tune-in to your lost animal, and make a Heart-to-Heart Communication via Energy. Your Animal Can Hear you through your Heart Center of Love. We assist you to find your lost pet, or identify where they may have been last, or currently are. We also provide a **Prayer/Mantra** to the Pet Parent, in helping their **Lost Pet** be Guided back home, as it also keeps the two-way line of Communication open while they are separated.
- **Animal Healing** (Reiki) is also provided for all healing needs, and/or to balance chakras, and keep healthy animals balanced.

- **After-life Animal-Reading** ~ Many Pet Parents yearn to know that their beloved one is ok, and what it is that they are doing in Heaven. We bring forth an open communication with the Pet Parent(s) to bring all the information that your Pet wants to share, such as who they are hanging out with, what activities they do, and what messages they may have for their Pet Parents and Families. It helps to bring comfort knowing what they are up to, and that they are able to hear us, and that we hear them.

Mary is an **Animal Communicator/ Pet-Psychic**. As an Animal Translator, she can help the **Animal Pet Parent** (Guardian) to Hear and See things, that they may not be able to.

We communicate with any breed of animal; cat, dog, horse, fish, bird, snake, and wildlife.

Mary provides her Listening skills to **Hear** the **Animal Speak** using Mind-to-Mind contact, and her Vision to **See** Images that the Animal Shows us. She **Feels** the **Energy** of what they are going through, and receives **Impressions** of their thoughts through toys, behaviors, owners, playmates, food and their emotions.

Mary also provides the highest available information to understand the karma of your pet or animal, through accessing their **Akashic Records**. She provides **Teaching Tools** to help the Pet Parent and Families with their Animal for their daily needs.

*****All Animal Communication and Healing work is done by phone.**

Testimonies ~

We were having an issue with our **Cat** urinating on the carpet over and over. I called Mary to see if there was a Solution to this behavioral change. She immediately tapped into a past life Memory that was now affecting him in this current life. Mary dove into the Energy quickly, and brought some information forward. After the Reading, more and more was discerned, and then she gave our

family ideas, and guidance on how to help him with this issue. Then she did a healing on him to co-correct the imbalances of his energy fields.

I am happy to report that this morning, there weren't any 'spots' in the house. We'll take it a day at a time. But for now, what has changed permanently is my relationship with him. I see him in a different light and feel more connected to him. Because he's had so many health problems through the years, that have been at times hard to deal/live with, it has built up a barrier. I've been aware of the disconnection but now I feel there has been a healing of sorts and it is making me more compassionate. I've known for quite some time that I cannot completely fix him and have had to learn to live with his issues, but as I said, I've become lighter and more loving.

Thank You so much I am SO grateful.

We are SO grateful.

I was so blessed with Mary Martin's assistance when I needed help with my two dogs. My dogs barked at everyone that came inside my home. They were also house trained but would have accidents frequently due to separation anxiety. Mary walked into my home and with her angelic-like presence my dogs ran straight to her for love and affection. Mary went through a past life record that was lingering and needed to be released. The center point of my living room also held a negative energy portal that was pulling my dogs inward, that also needed to be cleared. Once Mary did her healing energy work, they started to show drastic improvements. Mary taught me that not only was the healing work necessary, but I needed to genuinely communicate with them and give energetic love and light to them on a daily basis as well. I know my little guys appreciate her just as much as I do!!!! They are so much happier!
