

Gaithersburg Cluster

The Gaithersburg Cluster is working on building relationships among the cluster school PTA officers. We are also actively working with our cluster principals to help build our testimony for November 6th. The Cluster Principals' have included us in their monthly meetings, which we are so grateful for. The Gaithersburg Cluster Coordinators and other MCCPTA representatives have been contacted to be part of the process of the Gaithersburg Elementary School Site Selection Committee. We have accepted MCPS's offer to be part of the process. As of now MCPS has not shared when and how we will be part of the process.
