

Certified General Industry Safety Technician - 10 Hour (CCST)

Course Fees: \$295.00

Course Duration: 10 Hours CEU's .8

Certification: Certified General Industry Safety Technician - 10 Hour (CGIST)

(Note: Refresher certification is required every three years to maintain professional credential.)

Course Objectives:

IASHEP Certified General industry Safety Technician -10-hour training (CGIST) course teaches safety awareness and helps each worker recognize and reduce the risks of job site hazards. Our IASHEP Certified General Industry Safety Technician - 10-hour course places special emphasis on hazard identification, avoidance, control and prevention.

This course focuses on federal OSHA General Industry standards, pointing out any differences with State OSHA standards, and is a proven way to get your IASHEP 10 hour general industry safety training and achieve the safety level required by your company for work in the general industry. You are encouraged to learn company policies on these subjects, which might be different and more stringent.

Following this IASHEP Certified General Industry Safety Technician - 10 hour training course, students should be able to:

1. Recognize what worker rights are protected under OSHA
2. Recognize what responsibilities an employer has under OSHA
3. Identify major fall hazards
4. Identify common caught-in or -between hazards
5. Identify common struck-by hazards
6. Identify types of electrocution hazards
7. Identify ways to select appropriate PPE and lifesaving equipment
8. Identify major health hazards common to the general industry
9. Recognize how to protect oneself from material handling hazards

10. Identify major hand & power tool hazards
11. Recognize role of the workforce in improving the current culture
12. Recognize the role of management in improving the current culture
