

An Intelligent Gospel

"Life is too short to be easy ..but long enough to get right."

One instrumental means of establishing an objective life is to generate a two-fold doctrinal strategy: One that lends conscience to life's daily exchange; and the other which sheds meaning and hope in lieu of life's **mortal inevitability**.. ..revamping this terminal reality in order to accommodate a more futuristic "post-mortem" continuum. These constructs, or so-called.. "vested approaches" to life and/or death must provide.. (1) **an engaging-productive protocol**; and (2) **..a coherent intervening hope**.

An **Intelligent Gospel** abstains from ritualism, pious ceremony, sophistry, obsessive spiritual enchantment and baseless tradition in light of the misgivings of errant faith or of self-aggrandizing philosophies. It wars against *-mindlessness-* as shown in man's love affair with self-indulgence. A genuine **Intelligent Gospel** pierces the heart of humanism and the pulse of its distorted dominion.

Sorry.. there is no such thing as.. "a good guess".

Real Hope is bound by a promise in terms of a righteous agreement. It must be sought after with unrelenting persistence. An **Intelligent Gospel** assumes two fields of interest: **external & internal**. **TRUTH's** assiduous will is what connects us *first* to a place outside our living realm! **--not** to that vacillating temporal source within. Once acknowledged, Truth must be allocated for the intended gospel or "purge" to begin, and thus to take hold, and ultimately to take root ..then, to spring forth into its over-all intended goal: **--our eternal redemption**.

Reaching a level of promissory hope is the *only* proven means of securing a seamless life, while simultaneously contributing to the living integrity of this newly authorized directive.

..Simply speaking.. "It works!"

A more **Intelligent Gospel** challenges the **impervious status quo** with its inhered repeal of formal truth, as noted by a prideful heart and a self-sanctified spirit.

Submission to a circumspect nature is an absolute must!! Reflection, compunction, *and* wholesale duty are the elements of compliance toward a greater cause than materiality ..and *Self*. The **moral obstacle** still prevails!! ..not only for social order, but in one's daily prospect for restitution ..in Life's moment-by-moment displacement.

-- A Redeeming Future Means Everything --

A **Gospel** driven by lasting hope is good thing! We need a sure bet! --not a *gambled wager* of heaven vs. hell, nor the futility of endless posturing as to "earn" eternal acceptance. ..fact is.. We *are* accepted into a trial that guarantees a perfected outcome!! ..if we merely persist with the one conscious directive given to us: ..the application of **atonement**. (*Yah's foot in the door of an indeterminate life*)

The tools necessary are these: (*which are neither exclusive nor exhaustive*)

#1) courage

#2) an open/eager mind.

An Intelligent Gospel

- #3) an introspective nature.
- #4) a circumspect regard for life. (*what goes around, comes around*)
- #5) a willing.. but contrite and/or “heavy” heart.
- #6) social humility. (*none of us are “gods”*)
- #7) an enhanced love and determination for **Poignant Truth** (period)
- #8) a sense of duty w/ “presence” of mind.
- #9) a living creed. i.e.: (articles of fixed belief) ..*Source Orientation / our ‘Values’ Coordinator.*
- #10) patience & perseverance.
- #11) a longing for a sanctified union via consent of the complete/original **Holy Decalogue**.
- #12) refined observation/ abstract study/ comprehensive education and experience.
- #13) Of course.. ..the most important one.. **PRAYER**.

As compared to eternity . . .

What is the real meaning behind man’s terminal or “short-lived” existence?

*We must face the fact.. by the recourse of man’s fallen status, that our provisional living spirit is now; no longer; nor ever was.. “inherently” eternal. As such, man’s natural fallen spirit must be augmented by the sacred intravenous process of ..**Atonement**.. to regain eternal promise.*

..Time Issues the Ultimate Imperative..

Hope’s eternal compassion breaks the spell of self-deception, despair and degradation. These timely afflictions assault us all with a type of unkempt sporadic coarseness. –undermining the soul!! *Just remember*.. They are, in effect, ..shallow; temporal; leeching; egregious –yes ..or at worst.. incestuous. They are **not** perpetual by design, nor relevant to **any** one cause other than useless derision --opposing life! -NIHILISM-

An **Intelligent Gospel** *fuels* a hope worth striving for!! ..while harboring a renewed life within. ...reposed and subtle at its inception (“still small voice”) ..yet.. **“proactive in extended measure..”**

The four selfless tenets of **Infinite Worth** are: **virtue truth morality time**

What is Love in the absence of Truth?

*..and what is **Truth**.. if you can believe a lie and live forever??*
