Some dates are approximate due to various historical sources citing different dates for the same events. Also some kingdoms and dynasties have overlapping dates as they were rising and falling.

42 months = 3.5 years of 360 day yrs. or 1260 years - aka 3 1/2 times
Using prophetic code of 1 year for 1 day based on Ezekiel 4: 1-6

** Some Historists hold that the last half (3 1/2 years) of the 70th week of Daniel will not occur until Christ returns converting the Jewish people leaving a huge time gap before the completion of the prophesy.
** Some Futurists hold that the last half (3 1/2 years) of the 70th week will not occur until the antichrist (little horn) reigns at the end of the age for that period of time (leaving a long time gap in the prophesy) and is defeated by Christ when He returns.
** Some Futurists hold that the last full week (7 years) of the 70th week will not occur until the antichrist (little horn) reigns at the end of the age for the last half of that week (3 1/2 Years, leaving a long time gap in the prophesy) and is defeated by Christ when He returns.
*** Some Historists hold that the 1260 year reign of the Papacy over the Holy Roman Empire was from 538 AD to 1798 AD. See the events occurring on those days above.
*** Some Historists hold that the deadly wound was in 1798 when the Pope was imprisoned and the healing will be when Protestants return to the Roman Catholic Church and it rules Europe once again during the tribulation.
