Presentation Purpose:

The purpose of this activity is to review the importance of antibiotic stewardship in the outpatient setting, including primary care and specialty clinics, urgent cares, and emergency departments. Included will be a review of where we as providers fall short in managing appropriate antibiotic use in the primary care and acute care setting, and various ways we can improve.

Learning Objectives:

 Upon completion of this activity participants should be able to:

- Increase knowledge to understand the problem of antimicrobial resistance as it exists today
- Review areas that providers can improve in their prescribing practices for antibiotics
- Discuss ways to mitigate inappropriate antibiotic use and gain patient trust
