# OUR HISTORY

---

» Players Music, LLC

## OUR MISSION STATEMENT

---

Overtime, our long term, sustainable and competitive advantage will be to add value to the profitability and marketing and branding efforts of our customers no matter the size. We will be humble, ethical and moral in all decisions related to the operation of the company.

## EFFECTIVE SALES

---

Kits of the day composed of Valve Oil, cleaning brushes and many other band instruments accessories. "My supplier, Coast Wholesale, couldn't keep me in stock on maintenance kits." the bay area dealer commented, who had founded his business originally as a band instrument repair shop in 1976. This growth came from doing repairs for over 200 elementary, junior high, high school, college and drum and bungle corps. "I realized early on that I could greatly increase my profits by making add-on accessory sales to my band rental customers of which I developed some effective sales and merchandising techniques." I applied these principles not only to maintenance kits, but to all of my band and orchestra accessories."

## NEW WAY OF BUSINESS

---

Tony LaLonde noted that "Some of these principles were relatively simple, such as multi-unit packaging. We would take Rico Clarinet and Sax Reeds and instead of selling them individually, we would package them with header cards and sell them as 3, 6, and 12 packs. We wound up selling a lot more reeds as a result." Other retail businesses have been doing business this way for quite some time. For example, you can't just walk into a hardware store and buy one screw, you buy a small package of them.

## PLAYERS MUSIC ACCESSORIES

---

This lead to Players Brush Lube Prepacks. Tony LaLonde has since developed a new business based on this strategy of merchandising "small item" products called Players Music. Players Music markets a complete line of over 400 items including oils, polishes, snakes, brushes, swabs, violin shoulder pads, maintenance kits and other band accessories to dealers in the industry.

**Order Fulfillment:** It is our goal to expedite incoming orders with accuracy. Non-Private Label orders received in non-peak season will usually take less than 5 business days to process and then ship. Our peak season runs from June 5th through Oct. 15th correlating with the start of the new fall school year. Turnaround time for Private Label orders can take up to 4 weeks. To help cut your particular project's time line, make sure all of your artwork has been approved and is ready to print. Take advantage of our early bird ordering program to guarantee on time delivery during peak season.

**Good as Gold Guarantee:** All Players Products are unconditionally guaranteed. Should any product fail to perform, simply pay shipping and handling for return products to Players Music Accessories and we will replace it free of charge.

## ORDERING:

Total order dollar minimums are currently set at \$25.00 plus shipping fees. Orders may be placed via Phone, Fax, Email.

FedEx Ground is our preferred and default method of shipping inside the Continental US. Collect shipping accounts as well as other shipping options are accommodated. For international orders, including Canada, please call Players Music to speak with an associate for recommended options.

**Returns:** For merchandise returns due to order entry errors, Players Music will incur all related expenses. In most cases, a call tag will be issued and a shipping agent will pick up the merchandise. All other returns due to errors or misjudgment by our clients will be subjected to a 10% restocking fee as well as incurring related shipping expenses.

# Instruments That Give Plastic a Good Name

# WIN-D-FENDER

*Win-D-Fender is the solution to a problem that has affected flute players for centuries!*

Wind silences the flute.

Whether playing outdoor concerts, marching band performances, or wedding gigs on the beach, wind is a verifiable nightmare for flute players. Win-D-Fender solves this problem once and for all.

Lightweight and comfortable, Win-D-Fender installs easily and safely secures to the flute, shielding the lip plate from all directions while not interfering with the player's air stream. Win-D-Fender's ventilated design helps limit condensation, while enhancing sound projections so the flute may be heard outdoors like never before.

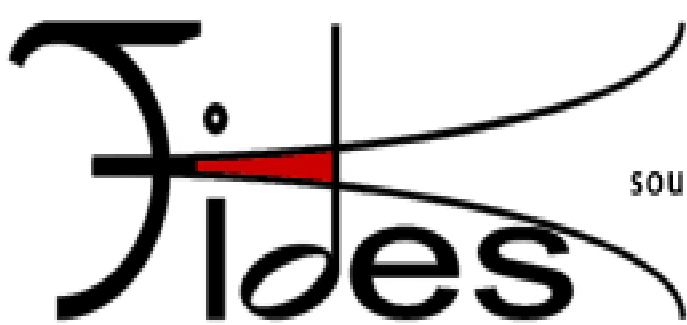

*Let the Flutes be heard!*

## FREEDOM ADJUSTABLE CLARINET BARREL

The Freedom Adjustable Clarinet Barrel is ideal for both large and medium bore clarinets. Made from aluminum alloy, the Freedom barrel has an infinite adjustable range below 60mm - above 70mm

- FREEDOM BARREL

## RS BERKELEY JORB

The JORB offers all brass players a new practice tool through which to develop a stronger set of "chops." The JORB and its unique, spring-loaded, cushioned rim will help players to develop a stronger lip vibration and aperture strength, while also serving as a tool to help instill a relaxed, steady air stream. All this promises to give brass players a pronounced improvement in their overall brass playing.

- JORB

## RIMRISER USA PYRAMID PAD

Great for Drummers on the go. Innovative adhesive holds pad securely in place. Builds precision. Fits in your pocket.

- PYRAMID PAD

## LESCAÑA PARAMOUNT SERIES REEDS

An exceptional reed for an exceptional sound, Lescaña Paramount Series Reeds are designed for use by players of all proficiencies in all playing conditions. The Paramount Series are hand selected and offer players consistency, affordability and long lasting value.

Available in sizes 2, 2.5, 3 and 3.5 in boxes of 10 and 20 reeds.

- Bb Clarinet  
- Bass Clarinet  
- Alto, Tenor, and Soprano Saxophone

# MONSTER OIL

## Brass Instrument Lubricants

Get quick,  
fast-responding valves.

### MONSTER OIL VALVE OIL ALL AROUND (ORIGINAL)

Our original formula valve oil. Best application for all-around, hassle-free, quick-action, buttery-smooth, long-lasting use. Takes forever to evaporate. Hide your kids, put on your sunglasses---this is the Monster Oil that will change the world. Appropriate for every trumpet ever made. Far superior to anything on the market today. You're welcome.

### MONSTER OIL VALVE OIL THIN STUFF (FASTER)

For you picky snobs who have brand spanking new close-tolerance valves, and are crazy enough to think that your fingers could possibly move faster than our "Original" formula is able to keep up with, this is the juice for you. So fast. So smooth. Still long-lasting. Still a great choice for any instrument.

### MONSTER OIL VALVE OIL ALL AROUND (SMOOTHER)

Some folks like to oil their valves once a year and be done with it. We cannot condone such poor instrument maintenance habits. However, what we CAN recommend is Monster's "Smoother" oil--our heaviest oil formula appropriate for valves. Not only will you get the staying power that supports your lazier tendencies, you will get the smoothest action you've ever had from a valve oil. Have an older instrument with worn valves? This will make them behave nicely, and will help to seal the gap created between valve and casing due to your vast years of neglectful and abusive ownership practices. It's so smooth you will forget that your valves even exist. Look, just buy it.

## MONSTER OIL TRUMPET SLIDE OIL - FOR 1ST AND 3RD VALVE SLIDES (NOT SUITABLE FOR TROMBONE SLIDES)

---

We just heard you play. You sounded out of tune, and like you were working too hard. We recommend that during your next practice session, you get in touch with your first and third valve slides--those things that your instrument designer put into place to help you stay in the center of the horn, instead of lipping everything everywhere all the time like we just heard you do. And what better way to do it than with perfection incarnate---Monster Slide Oil. A few drops lasts you between cleanings, and it's smooth enough to fool you into believing that your slides aren't really made of metal...more like made of butter. Yeah, that's about right--two sticks of butter just rubbing against each other. It feels amazing, but not as amazing as playing in tune. You have some work to do. This will help!

## MONSTER OIL SLIDE GREASE - SYNTHETIC, NON LANOLIN, FOR TUNING SLIDES

---

The Worst Part of Playing a Brass Instrument, a Short List: 1: The sheer amount of physical human attraction that it generates from all sexes. 2: Sullen looks from newly bedeaftened woodwind players. 3: Tuning slide grease. Nobody likes it. It's annoying. We get it. But it's a necessary evil, so stop whining and start putting something on your horn that NASA has been using for years: Monster slide grease. Thick, long lasting, perfect seal. You won't lose the tub either, like you normally do---this one is too good looking.

## MONSTER OIL LIGHT ROTOR OIL - PROTECTED NEEDLE APPLICATOR

---

Did you know that a French horn is approximately 425 feet long when it's stretched out? So there are a lot of places that need lubrication. Our Light Rotor Oil is perfect to put right on the rotors themselves. And we have a specially designed precision tip with a cover that means you won't have to put this bottle in a plastic bag! Like the rest of our lineup, this stuff is fully synthetic and designed to clean, protect, and lubricate your rotors at least until the universe contracts into the black hole that will end everything. Oh, and it works great on rotors for trumpets and tubas too!

## MONSTER OIL HEAVY ROTOR OIL - PROTECTED NEEDLE APPLICATOR

So you're trying to oil your rotary, but cars with mean people in them keep driving by shouting things like "OY! MATE! Ger'outta the rotary, you're blockin' me Mini Coopah!!!!!" Before long you realize you were supposed to be oiling your "rotors". This is the heavier version of our rotor oil if you need something a bit thicker to get things moving smoothly. And we have a specially designed precision tip with a cover that means you won't have to put this bottle in a plastic bag! This stuff is fully synthetic and designed to clean, protect, and lubricate your rotors. Throw it on French horns, trumpets, tubas, and shillings. Why shillings? ....why not shillings?

## MONSTER OIL BEARING AND LINKAGE OIL - ROTARY INSTRUMENTS

Our Bearing/Linkage Oil (BLO) is a tremendous product. Users tell us that when they use BLO they have feelings of euphoria that can't be duplicated with anything else. BLO can be used almost anywhere, but generally players use BLO while they're lubricating all of the bearings and linkages that commonly exist on brass instruments. BLO has a unique precision tip with a cover that prevents leaking and breaking—so no more having to put your BLO in a plastic bag! When your BLO is depleted, simply call up your local dealer and ask them for the best BLO they can get their hands on.

## MONSTER OIL TRUMPET VALVE OIL - SPECIALLY DEVELOPED WITH AND FOR DOC SEVERINSEN

Time for MadLibs! Doc Severinsen loves to put -noun- Oil on his -noun-. When we -verb (past tense)- our oil to him he was so excited he -verb (past tense)- all over town! We made this stuff from the ground up to make the master happy, and it's the only thing he uses. Grab a bottle and -verb- it all over your horn just like Doc! Seriously though... There's a good reason Doc Severinsen is one of the greatest trumpet players of all time—he's extremely picky. We started sending him valve oil samples, and he loved them, but would constantly want to tweak them until they were just right. Well we finally got it right and he's in love! This is the valve oil Doc loves and uses. It is a fully synthetic oil that is designed to clean, protect, and lubricate your valves.

## MONSTER OIL POLISHING CLOTH - MICROFIBER

Your horn is just not shiny enough...yet. It appears that you're in need of one-hundred-fourty-four square inches of lint-free, double-fleeced, microfiber glory. Choose any color you want - as long as it's red. **ALTERNATIVE USES:** Decorative lunchtime bib, sleeping bag for pet rock, cape for very small matador, floppy origami sheet, make your own pants (18 cloths should be enough). Choose your own adventure, folks.

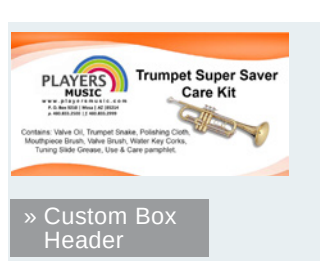

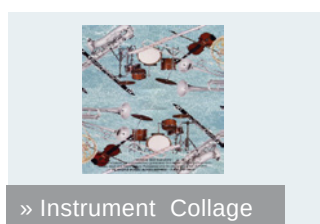

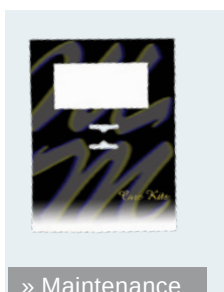

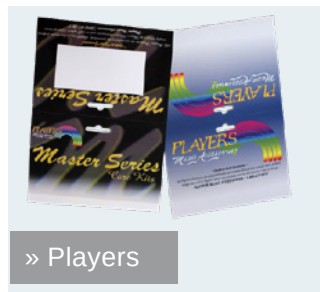

## MONSTER OIL TRUMPET CARE AND CLEANING KIT

Easily the highest quality trumpet care and cleaning kit on the market. Guess which ingredient you don't get: Ham sandwich, mouthpiece brush, valve casing brush, leadpipe snake, Original valve oil, thick slide grease, double-fleeced microfiber polishing cloth, pencil, detailed cleaning instructions, fingering chart, bonus item(!), and a resealable and durable plastic carry case.

# INSTRUMENT CARE KITS

## HEADER STYLE CARE KIT

---

### FOR THE BEGINNING STUDENTS & ADVANCED STUDENTS.

---

All Kits are eligible for private labeling and the option of one of our custom headers (see Page 1).

Our Care Kits are designed for the beginning and advancing student without a lot of unnecessary extras.

Over the past 50+ years, we have spoken to numerous educators and have selected the essentials they most request to start your child on the first day of music and beyond.

Each kit has the basics to begin class and has been custom made give you the most affordable products.

In addition to these kits, we have additional accessories to replenish the kit as they are used, or to add to the kits, for the more advanced student.

## BOX STYLE CARE KIT

---

## MASTER SERIES CARE KIT

---

### CUSTOMIZING CARE KITS

---

We also understand that over the years band directors have requested or required other products in their programs.

So if one of our Care Kits does not suit your needs, we have the ability to customize the kits so they do.

We offer free samples of any products so you can share with your local band director and let them try the product.
