

PEST CONTROL

Grubs/Moles – Use 98G Pelletized Lime to bring your pH levels up; weeds and grubs thrive in low pH levels. Use **Award with Merit Grub Control** to get rid of the Grubs. Apply in the Spring, just after your first lawn cutting and again in late July/early August for best results.

Mosquitos – **NEW Spartan Mosquito Eradicator** just add water, hang and eradicate mosquitoes for up to 90 days.

Insects – **Diatomaceous Earth** – All Natural dust can be used in and around buildings, in chicken coops, on potato plants, berry plants; except while bearing fruit. Multi-use for many insects.

WEED KILLER FOR LAWN

2, 4-D AMINE is a concentrated spray to kill broadleaf weeds in grasses.

LAWN SEED COVER

Straw is the most common cover for lawn seed. Use your hands or a pitchfork to shake the straw loose, breaking up any clumps. Apply lightly. When you look down at your seeded lawn, you should see about 50% straw and 50% seed covered soil.

Eco Flake Shavings make an excellent lawn seed cover. Shavings break down much quicker than straw, leaving only the lush green grass to see; whereas, you will still see straw a year after planting the grass. There is no mess in your vehicle, hauling it home.

**Straw Erosion Mats 8 ft. x 112.5 ft.
6" Staples**

HOHL'S GRASS SEEDS

HOHL'S ATHLETIC - 5-6 lbs/1000 sq. ft.
Does well in Sun, Shade and most soil types.
Handles traffic well.

4 STEP LAWN CARE SYSTEM

Step 1. April –May

(depending on soil temperature)

Apply **Award w/Dimension** Crabgrass Control, lasts up to 120 days, still works up to 3 weeks post emerge. If planting grass seed, skip this step and use Lawn Starter 20-12-8.

Step 2. May-June & Aug –Sept

(when temperature between 68-80° F)

Apply **Award w/Trimec** (post emergent for broadleaf weed control) **or Viper** (post emergent for tough creeping weed control) - Best control when grass is moist. Avoid mowing & watering or rain for 48 hours. Skip this step for new lawns.

Water after 48 hours of application.

Step 3. June-October

Apply **Delong Turf Food Fertilizer (24-0-10)**. When temperatures exceed 85° F, cut rate by ½.

*Can additionally apply **Award w/Merit** for grub control.*

Step 4. September & October

Apply Turf Food & Turf Builder for greener lawn. Winter or fall fertilizer (**Winterizer 24-0-10**) for cool season grasses.

FERTILIZER WITH WEED CONTROL

CRABGRASS CONTROL

Award Turf Fertilizer with Dimension provides season-long control of crabgrass and controls or suppresses other listed summer annual grasses and broadleaf weeds. Award Turf Fertilizer with Dimension is a non-staining, low-odor formula that can be applied on established lawns, golf course fairways, roughs and tee boxes.

Award Turf Fertilizer with Dimension has an application window of two to eight weeks longer than any other herbicide on the market by providing both pre and post-emergent crabgrass control.

BROADLEAF WEED CONTROL

Award Turf Fertilizer with Trimec combines three active ingredients together to control over 200 broadleaf weeds. This balanced formula of 2,4D, MCPP-p and Dicamba attacks both common and hard-to-control weeds directly to the root. Labeled for use essentially anywhere nuisance weeds grow, Award Turf Fertilizer with Trimec assures proper weed control while providing essential plant nutrients.

BROADLEAF / CREEPING WEED CONTROL

Award Turf Fertilizer with Viper contains a premium grade herbicide and turf food combination which controls a wide spectrum of broadleaf and tough creeping weeds, such as creeping charlie & creeping jenny, while providing both fast and long feeding action.

ALL PURPOSE FERTILIZERS

10-10-10 is an all-purpose fertilizer for new Lawns, around trees and shrubs or areas needing phosphorus, as indicated from a soil test, which should be done every 3-5 years for lawns. **10-10-10**

is also wonderful for Vegetable and Flower Gardens; apply 2 lbs./100 sq. ft. and work into soil before planting, or 1 lb./100 sq. ft. to feed established plants – water thoroughly.

ORGANIC LAWN & GARDEN FERTILIZER

Nature's Supreme Lawn and Garden Food 4-3-2 **slow and steady release** all purpose organic fertilizer with 7% calcium. Granulated poultry manure with low odor; for use in gardens, flower beds and lawns.

Milorganite is a non-burning, nitrogen rich, long lasting fertilizer for lush lawns and abundant gardens, superior shrubs, flowers and vegetables. Contains 2.5% Iron for enhanced greening.

TURF FOOD/SEED STARTER

Delong 24-0-12 Turf Food can be applied anytime, Spring through Fall when air temperatures are under 85° F. This blend makes an excellent Winterizer for your Lawn when applied in September or October. Use with established lawns; apply when lawn is dry and water following application.

20-12-8 Lawn Starter fertilizer can be applied anytime, Spring through Fall when air temperatures are under 85° F. You may apply this to the soil prior to planting the seed (may be applied same day) It will give your lawn a great jump start and green grass. You may also apply to the lawn after it is up. When planting your lawn in the spring, you will want to use the seed starter fertilizer in the Fall, instead of the Delong 24-0-12 Turf food. You may switch to the Turf Food after your lawn has been established for 1 year.
