

The Motions & Proposals Committee is designed to ensure that motions are properly and completed formed and PCs are informed and educated on what they are voting on. In addition, saving time and eliminating confusion. Any PC may introduce new business at a District Meeting. However, to ensure that motions made from the floor are well planned, formed, and drafted, and to eliminate multiple amendments, bringing clarity on what is actually being voted on and avoiding delay during meetings, motions and proposals must be submitted to the Motions & Proposal committee prior to being voted on by the body.
