

BARKMAN
— FURNITURE —

Builders of Fine Hardwood Furniture

From its inception in 1992, Barkman Products LLC, parent company of Barkman Furniture, has been dedicated to building the finest quality of hardwood furniture and accent pieces, using a careful blending of generations-old hand-crafting techniques complemented by state-of-the-art woodworking equipment. All Barkman furniture is manufactured in the United States.

In 1992 Barkman Products built primarily wooden toys and household accessories, but soon moved into the manufacture of cabinet doors and contract furniture, such as retail fixtures. Additional production space was needed, and in 2008 Barkman Products owner and president Albert Barkman and his wife Fannie purchased a newer facility with space sufficient to allow for rapid growth and expansion of the product line.

This expansion allowed Barkman Products not only to dramatically grow the door and contract parts of the business, but also to introduce an extensive line of fine hardwood furniture for the home. Contained in this catalog is an abundant selection of superior quality hardwood dining and bedroom furniture, as well as many unique occasional tables, accent pieces and accessories, all available to be custom-built in a variety of unique finishes, and delivered rapidly to the customer.

It is the mission of Barkman Furniture to produce furniture of the highest quality, always built to the most exacting standards in the industry, and worthy of being handed down from one generation of your family to the next.

This catalog and its contents are the sole property of Barkman Furniture, division of Barkman Products LLC. © 2012

Your new furniture...

THE JOURNEY FROM FOREST TO HOME.

The creation of fine furniture is, indeed, a journey. Starting with the finest of hardwood logs of many species, hand-selected and harvested from sustainable Midwest forests, and ending with custom-built, American-made furniture destined exclusively for your home, the Barkman

Furniture journey has many stops along the way. The pathway of the journey blends state-of-the-art technology with hand craftsmanship, passed down from one generation to the next. The result is heirloom-quality furniture that will be part of your family for generations to come.

Inception...

Only the finest selection of hardwood logs, harvested exclusively from sustainable forests, is used in the creation of Barkman hardwood furniture. In addition, select logs of white pine, red cedar, and aspen are used to create items included in the Rustic Living collections. Fresh from the sawmill, lumber will then be graded and sorted to select only the finest boards to be used to build Barkman hardwood furniture.

Preparation...

Boards are then carefully stacked and dried to assure proper seasoning before the manufacturing process begins. Once boards are adequately seasoned, they are moved to panel processing. During the production process, state-of-the-art woodworking machinery produces panel and frame components to incredibly close tolerances. Framing is the start of the process of actually building a piece of furniture; time-honored techniques for joinery, such as dovetailing, tongue-and-groove, box joints, and mortise-and-tenon, all have been used for centuries to construct furniture that stands the test of time, and also provides unique aesthetic appeal.

Production...

Once a piece of furniture is assembled, hand techniques are employed to make each piece of Barkman furniture a one-of-a-kind treasure. Hours of sanding, planing, and, in some cases distressing, insure that each piece of furniture bears the special signature of the craftsman to whom it was assigned, and that it is ready for the application of one of dozens of custom finishes.

Perfection...

The process of applying custom finishes utilizes a combination of automated spray application and hand-sanding and wiping techniques. The result is always a finish that enhances the beauty of the species of wood selected, while at the same time providing protection and beauty that will only improve with the patina that time creates.

Delivery...

At the end of the Barkman journey is furniture of unsurpassed beauty and durability, as close to perfection as humanly possible, with each piece bearing the signature of the artisan ultimately responsible for its appearance and quality. Furniture is then carefully packaged and shipped to the retailer from whom you made your selection, and delivered and set up in your home, ready to provide years of enjoyment for you and your family.

Timber Ridge

BEDROOM COLLECTION

Timber Ridge is equally at home in an Appalachian mountain home or an Atlanta high-rise.

Ample proportions and unique raised-panel details, combined with the custom touch of many finish options, make Timber Ridge appealing to diverse lifestyles.

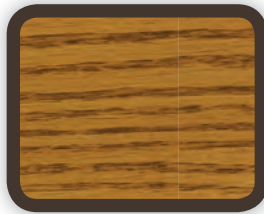

Stains, Hardware & Features

There are literally dozens of possible wood and stain combinations for your new bedroom collection. While we are pleased to be able to offer a large variety, we realize this can be overwhelming and we would like to offer our assistance. We highly recommend one of the following combinations and have also highlighted several suitable hardware selections to accompany your choice.

Blue Ridge

BEDROOM COLLECTION

To describe Blue Ridge as based on a slat bed, seriously understates the case! Here, a slat bed takes on a more organic personality with slats in both headboard and footboard dramatically curved, along with base rails. This curved effect is echoed in base rails of case pieces.

Chesapeake

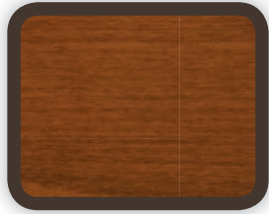

BEDROOM COLLECTION

Transitional styling at its finest is represented by Chesapeake. Unique "suspended panel" headboard design and slightly recessed hardware on case pieces are just two of the custom features that define the appeal of this value-priced group.

Stains, Hardware & Features

There are literally dozens of possible wood and stain combinations for your new bedroom collection. While we are pleased to be able to offer a large variety, we realize this can be overwhelming and we would like to offer our assistance. We highly recommend one of the following combinations and have also highlighted several suitable hardware selections to accompany your choice.

Coastal Cottage

BEDROOM COLLECTION

From the Outer Banks to Big Sur, Coastal Cottage would be the perfect complement to any home, be it on the coast or inland. Available pastel finishes balance the substantial scale of each piece in the collection, and provide a sunny, vacation-like atmosphere even on a cloudy day.

Stains, Hardware & Features

There are literally dozens of possible wood and stain combinations for your new bedroom collection. While we are pleased to be able to offer a large variety, we realize this can be overwhelming and we would like to offer our assistance. Elements

BEDROOM COLLECTION

Showing just a hint of mission or Arts and Crafts inspiration, Elements is still most definitely styled for the twenty-first century. The feeling is organic; lighter finishes in particular enhance the free, airy feeling provided by the open head- and footboard detail.

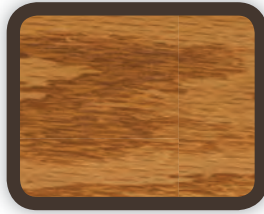

Stains, Hardware & Features

There are literally dozens of possible wood and stain combinations for your new bedroom collection. While we are pleased to be able to offer a large variety, we realize this can be overwhelming and we would like to offer our assistance. European Tour

BEDROOM COLLECTION

Old World craftsmanship as seen in the grand manors of Europe was the inspiration for European Tour. Unique turned posts, not only on beds but repeated on case pieces, allow light to pass through, providing counter-balance to the substantial scale of pieces in this collection

Available custom finishes will enhance the "inherited" appeal of European Tour.

Stains, Hardware & Features

There are literally dozens of possible wood and stain combinations for your new bedroom collection. While we are pleased to be able to offer a large variety, we realize this can be overwhelming and we would like to offer our assistance. Lake Champlain

BEDROOM COLLECTION

A unique interpretation of mission inspiration in design, Lake Champlain features fine hardwoods combined with authentic mortise-and-tenon joinery to offer classic mission styling at an extremely affordable price.

Stains, Hardware & Features

There are literally dozens of possible wood and stain combinations for your new bedroom collection. While we are pleased to be able to offer a large variety, we realize this can be overwhelming and we would like to offer our assistance. We highly recommend one of the following combinations and have also highlighted several suitable hardware selections to accompany your choice.

Post Mission

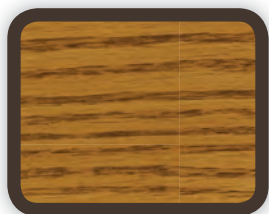

BEDROOM COLLECTION

As the name implies, Post Mission is an authentic interpretation of classic mission-period design that flourished in the early twentieth century, patterned after simple furniture found in early California missions. Post Mission features classic bow tie inlays, mortise-and-tenon joinery, and book-matched grain technique on panels. Quarter sawn oak is an option providing a most authentic grain effect.

Stains, Hardware & Features

There are literally dozens of possible wood and stain combinations for your new bedroom collection. While we are pleased to be able to offer a large variety, we realize this can be overwhelming and we would like to offer our assistance. We highly recommend one of the following combinations and have also highlighted several suitable hardware selections to accompany your choice.

Book matching of wood grain is found only in the highest quality furniture lines, and in fine musical instruments such as violins and guitars. Book matching is the process of matching two (or more) wood surfaces, so that the two adjoining surfaces mirror each other in appearance, giving the appearance of an open book. The two adjoining surfaces are produced from the same piece of wood, so that they have (almost) exactly the same grain pattern, but mirrored.

Structures

BEDROOM COLLECTION

Structures was designed for the purist, the person who believes "less can be more." Simplicity of line pervades every piece in the collection, and it is this simplicity that allows the grain of carefully selected hardwoods to stand up and be noticed for its uncommon and never-duplicated beauty.

Stains, Hardware & Features

There are literally dozens of possible wood and stain combinations for your new bedroom collection. While we are pleased to be able to offer a large variety, we realize this can be overwhelming and we would like to offer our assistance. We highly recommend one of the following combinations and have also highlighted several suitable hardware selections to accompany your choice.

Wind River

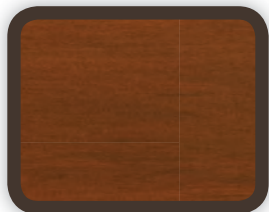

BEDROOM COLLECTION

Wind River represents a more literal interpretation of mission-inspired furniture, and it offers a hint of Arts and Crafts- era inspiration, especially seen in the exposed box joint corners, and in the door panel detail of the unique High Boy.

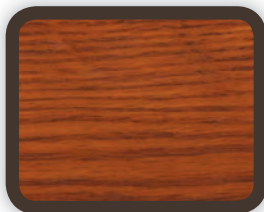

Stains, Hardware & Features

Grand River

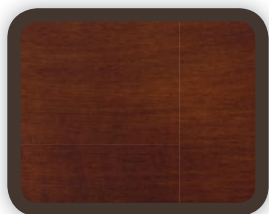

D I N I N G C O L L E C T I O N

Definite influence from the Arts and Crafts school of design is apparent in Grand River. Gently sweeping profiles seen in Grand River pieces are characteristic of furniture inspired by the Arts and Crafts era, as it evolved from the straight lines of purely mission-inspired furniture.

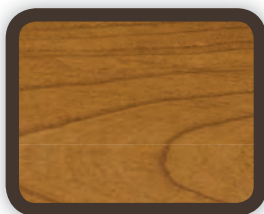

Stains, Hardware & Features

There are literally dozens of possible wood and stain combinations for your new dining collection. While we are pleased to be able to offer a large variety, we realize this can be overwhelming and we would like to offer our assistance. We highly recommend one of the following combinations and have also highlighted several suitable hardware selections to accompany your choice.

America's Past

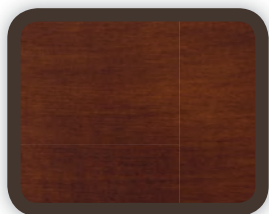

DINING COLLECTION

As the name implies, the America's Past collection represents furniture from the period of America's founding. English in inspiration, furniture of this period emulated that owned by the privileged classes in The Motherland. Carving, wood species selection, grain matching, table leaf detail, and hardware featured, are all period-correct.

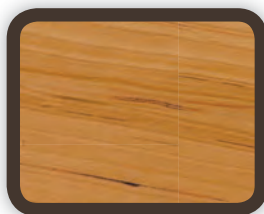

Stains, Hardware & Features

There are literally dozens of possible wood and stain combinations for your new dining collection. Chateau

DINING COLLECTION

Chateau represents uncommon value in authentic European Country styling. Lines are true to the period, and as a result, are uncluttered and clean, allowing many custom finish options, including combinations of natural and weathered effects, to define the piece.

Stains, Hardware & Features

There are literally dozens of possible wood and stain combinations for your new dining collection. While we are pleased to be able to offer a large variety, we realize this can be overwhelming and we would like to offer our assistance. We highly recommend one of the following combinations and have also highlighted several suitable hardware selections to accompany your choice.

Edinburgh

DINING COLLECTION

Pieces in the stunning Edinburgh collection reflect classic profiles of the Art Deco era. Lines are simple and honest, with unique visual appeal provided by dramatically tapered dining chair backs. Delicately tapered legs mirror this detail and complete the unique aesthetic appeal of this collection.

Heartland

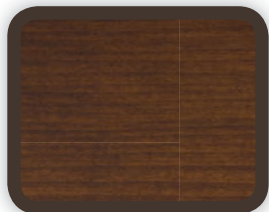

DINING COLLECTION

As American as apple pie, Heartland represents styling developed in America's heartland in the late eighteenth and early nineteenth century. Legs are turned to faithfully replicate shapes originally designed and built in this period, and authentic pegged joinery on corners and doors is also period-correct.

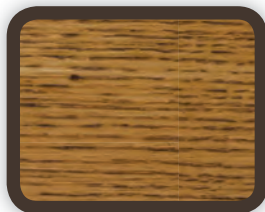

Stains, Hardware & Features

There are literally dozens of possible wood and stain combinations for your new dining collection. While we are pleased to be able to offer a large variety, we realize this can be overwhelming and we would like to offer our assistance. We highly recommend one of the following combinations and have also highlighted several suitable hardware selections to accompany your choice.

Provence

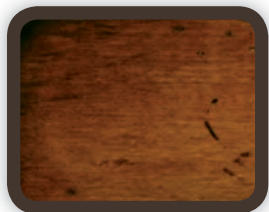

DINING COLLECTION

The look of Old World artisan craftsmanship is evident in Provence. Furniture such as this might have graced cozy farmhouses in the south of France. Combination finishes are particularly appropriate for this collection, and enhance an “inherited” ageless feeling.

Stains, Hardware & Features

There are literally dozens of possible wood and stain combinations for your new dining collection. While we are pleased to be able to offer a large variety, we realize this can be overwhelming and we would like to offer our assistance.
