Meeting Particulars + Meeting Attendance

Meeting Particulars

Open House Date: May 29, 2019
 Open House Location: Hartford Heights VFD
 14335 Route 30, Irwin, PA 15642
 Public Officials Briefing: 3:00 – 4:00 PM
 Public Open House 5:00 – 7:00 PM

Open House Summary

Uniontown, PA – The Pennsylvania Department of Transportation (PennDOT) Districts 12-0 and 11-0 are currently developing plans for the Route 30, Western Segment portion of the project. The purpose of the meeting is to preview preliminary engineering plans that have been developed for the western segment of the project (from the Route 48 intersection to Carpenter Lane/Leger Road) to modernize the US 30 corridor infrastructure in order to improve safety, mobility, and economic vitality. The meeting will be conducted in an open house format with an updated project video and display boards.

Plans Display Route 30 Corridor -- Western Segment

Irwin Borough and North Versailles Township, Westmoreland and Allegheny counties

Uniontown, PA – The Pennsylvania Department of Transportation (PennDOT) Districts 12-0 and 11-0 are currently developing plans for the Route 30, Western Segment portion of the project. The purpose of the meeting is to preview preliminary engineering plans that have been developed for the western segment of the project (from the Route 48 intersection to Carpenter Lane/Leger Road) to modernize the US 30 corridor infrastructure in order to improve safety, mobility, and economic vitality. The meeting will be conducted in an open house format with an updated project video and display boards.

An Open House Public Plans Display is being held to review the proposed design plans on May 29, 2019, from 5:00 p.m. to 7:00 p.m. at the Hartford Heights VFD located at 14335 Route 30, Irwin, PA 15642. Representatives of PennDOT, and its design consultants, will be available to explain the project and receive your input.

The Public Plans Display location is accessible to persons having disabilities. Any person having special needs or requiring special aid is asked to contact Pennsylvania Department of Transportation approximately one week prior to the meeting. If additional information is needed, please contact Project Manager, Joshua J. Zakovitch, P.E., at 724.439.7377, prior to the Public Plans Display.

Schedule of Events

Public Meeting #1 - March 2nd, 2016
 Project background presented and received input from the public on the Route 30 transportation needs along the corridor.

[View Presentation from March 2nd](#)

Public Meeting #2
 Preferred Alternative Presentation
 Master Plan, project video and display boards in an open house format to receive input from the public.

[View Project Video shown at October 5th Meeting](#)

Public Meeting #3
 Preliminary engineering plans review for the western segment (from the Route 48 intersection to Carpenter Lane / Leger Road)
 Meeting Date & Time: May 29th, 2019, 5 - 7 pm
 Meeting Location: Hartford Heights VFD (Fireman's Club)
 14335 US 30, Irwin, PA 15642

Drop completed form in the comment box at the meeting, or email to: Joshua Zakovitch, PE, PennDOT Project Manager at jzakovitch@pa.gov

TELL US ABOUT THE PROJECT

1. Please provide any comments or feedback about the engineering drawings shown for the western segment project of the Route 30 Projects:

Drop completed form in the comment box at the meeting, or email to: Joshua Zakovitch, PE, PennDOT Project Manager at jzakovitch@pa.gov

Meeting Handouts

Welcome!
Route 30 Projects
Public Input Meeting #3
Wednesday, May 29, 2019

Meeting Room Layout

STATION 1: Welcome and sign-in table

STATION 2: Project Video
This station includes a narrated video that describes the work done on the project to date and provides an overview on the status of the project.

STATION 3: Project Background and Schedule
This station provides information on the work completed to date, outlines why the project is being completed, and gives an overview of the project schedule. It includes the following displays:

- Project Location Map
- Work to Date
- Purpose and Need
- Project Schedule

STATION 4: Proposed Alternative Benefits and Access
This station describes the overall corridor plan from 10th Street in Irwin Borough to Leger Road in North Versailles Township, expected project benefits, and the changes in access for properties and emergency response times. It includes the following displays:

- Proposed Alternative Map
- Benefits
- Corridor Accessibility

STATION 5: Western Segment Preliminary Engineering Details
This station includes details for the first section to be implemented, from just east of Leger Road in Westmoreland County to just west of Route 48 in Allegheny County. It includes the following displays:

- US 30 at 4 Intersections
- US 30 at SR 48
- Typical Section
- Corridor Detail Maps

Purpose & Need:

Modernize the US 30 corridor infrastructure, thereby improving the safety, mobility, and economic vitality of the corridor.

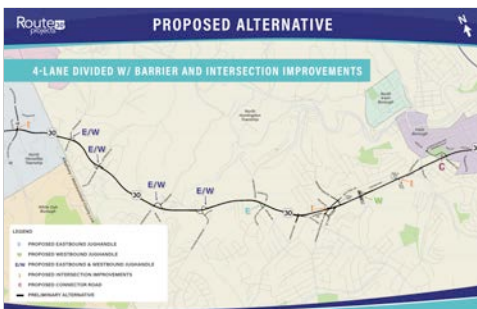

Include improvements to:

- **Safety conditions** for the traveling public
- **Operational deficiencies** to enhance mobility
- **Facility and infrastructure deficiencies** to provide a reliable and sustainable facility
- **Community and economic development** constraints

Station 3: Purpose and Need

Station 4: Schedule

Station 5: Proposed Alternative Map

BENEFITS

This table will provide significant safety operational and enviro benefits.

BENEFIT	MEASURE
CRASH REDUCTION (%)	17%
DELAY SAVINGS (HRS)	24.3M
STOP SAVINGS (MI)	163,000
FUEL SAVINGS (GAL)	28.8M
EMISSIONS REDUCTION (TGS)	2.1M

OPERATIONAL BENEFITS

- Overall LOS C/D or better at all locations along US 30
- 20-40% less travel time (3.5 to 10 minute savings in the PM peak)
- Substantially reduced queuing, delays, and spillback at SR 48
- Easily-accessible, signal-controlled jughandle turnarounds
- Enhanced geometry to facilitate truck turning movements

SAFETY BENEFITS

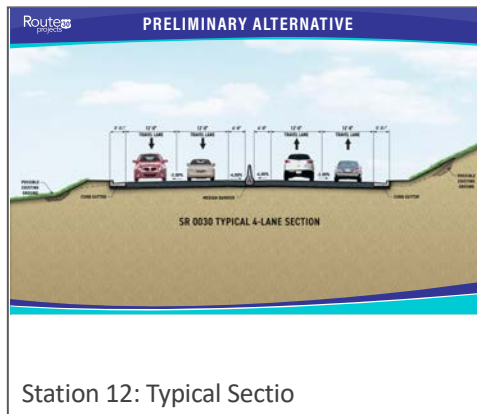

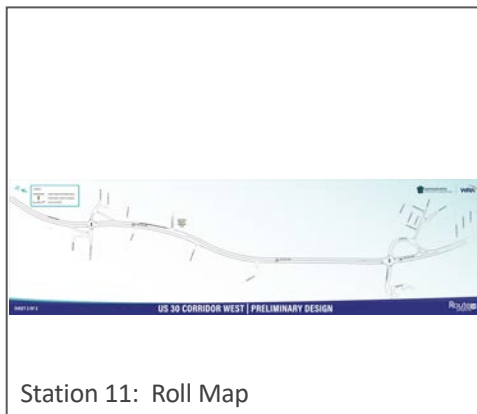

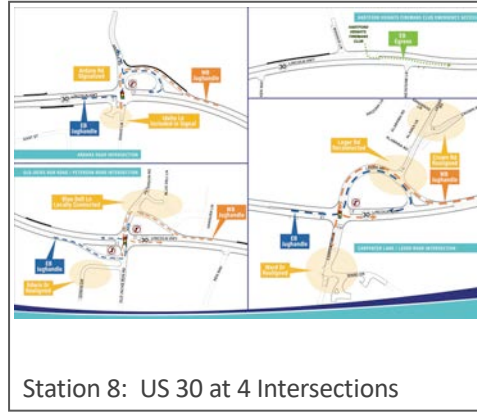

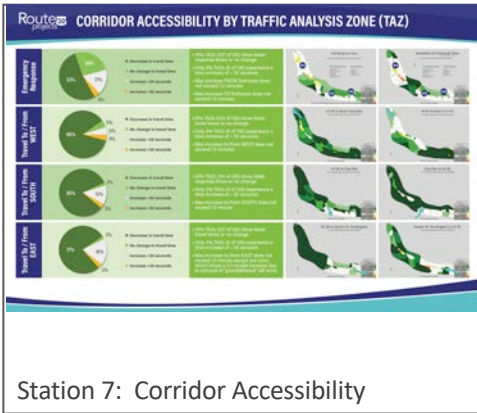

- 1175 fewer crashes over 20 years
- > 60% crash reduction
- = 4-5 fewer crashes, emergency call-outs, and closures per month
- Managed & more easily navigated turns and side-street access
- Improved stopping-sight distance with vertical curve enhancements

ENVIRONMENTAL BENEFITS

- = 20,800,000 gallons of fuel saved (= 1,900-2,500 tanker trucks)
- Improvement in air quality via reduced emissions containing carbonmonoxide (CO), nitrogen oxides (NOx), and volatile organic compounds (VOC)
- Improvement in quality of life with safer travel, less delay, and managed access

Station 6: Benefits

Display Station

Website Updates

Home About Planning Designing Construction Contact

On behalf of PennDOT Engineering District 12, I am pleased to share the Route 30 Projects website as a source of project information for residents, commuters, and all who travel the US 30 Corridor. The website provides a resource to track the status of our efforts to improve and modernize this critical corridor of Route 30. The first Route 30 project is from 10th Street in Irwin to Route 48 in North Versailles Township.

PennDOT is committed to improving safety, multimodal mobility, and reliability for the users of Route 30 through these multi-phase projects.

As improvements are identified and approved, we will be designing and constructing them in a phased approach over time. I encourage you to explore the website to learn more about our overall vision and individual improvements for the Route 30 Corridor, stay up-to-date on project development, and see how you can get involved.

Joseph J. Szczur, P.E.
 PennDOT District 12
 District Executive

Section 6

Public Officials Briefing

INTRODUCTION

Penn DOT began the meeting with opening remarks.

Liberty Hill, introduced himself as the plans engineer for the project. He noted that it has taken 3 to 4 years to get to this point in their design. The presentation for the Route 30 project public officials meeting will only include the western section of the corridor as the first phase.

Joe Szczur opened with statements regarding the corridor improvements including the median barrier on the first 2 mile section. Penn DOT is pleased with the design consultants and their efforts to this point on the project and how much effort they put into creating a design that responded to so many of the specific requests that have come in to date from the various public and stakeholder meetings. The project finance will be going towards this first phase of the project.

Rachel Duda introduced herself to all in attendance and thanked everyone for coming. She noted that they are working to take everyone's comments into consideration. Rachel also made note that the original budget estimate noted in the newspapers was a preliminary estimate for the entire corridor.

Following these opening comments the video of the road way design improvements was viewed by the public officials present at the meeting.

PROJECT SCOPE OF WORK

Scott Thompson Graves explained the design updates for this first phase of the project.

Following these opening comments the video of the road way design improvements was viewed by the public officials present at the meeting.

The presentation was ended at that time and the meeting was opened up for questions and comments on the preliminary improvements.

QUESTIONS AND COMMENTS

Andy Blenko (AB): Requested additional explanation on the modified R' or displaced left turn.

Scott Thompson Graves (STG) and Rachel Duda (RD) responded: To make the left at the intersection travelers will go thru the intersection and make a u-turn further down.

Duane Kucera (DK): What is the reason for the intersection at sheets and the school to be re-aligned.

Scott Thompson-Graves (STG): By aligning the intersection they can create safer more efficient traffic movements thru the intersection. By eliminating the off-set intersection travelers can see the on-coming traffic.

Rachel Duda (RD): With the offsets right turns always have the right of way, which can cause traffic issues at the adjacent intersection and travelers leaving the Sheetz.

Duane Kucera (DK): Suggested to speak with the school regarding the intersection shift and their school traffic and bus stacking all being in one intersection.

Rachel Duda (RD): They will work with the school on design ideas and possibly propose a widening or a ramp.

Liberty Hill (LH): Agreed that they will review the design and possibly propose and additional right and/or left turn lane at the re-aligned intersection.

Joe Szczur (JS): It was left at the previous meeting that WRA and the school district would meet and discuss the bus schedules.

Rachel Duda (RD): Discussions should also be set up with the Sheetz to find out their max traffic volume and peak time of day.

Duane Kucera (DK): Has the park and ride been reviewed?

Rachel Duda (RD): We are using some of the park and rides' property for the new improvements.

Mike Turley (MT): What geographic analysis has been done for the jug handle locations, how have they been chosen? Will it create more traffic/stacking at the intersections because the access points are being limited?

Scott Thompson-Graves (STG): Simulation software was used including Synchro, Vissim, Visum and Penn DOT standard turn lane worksheets. All of the existing peak

traffic movements were reviewed and analyzed as well. Further review can be done to add stacking lengths, but it would require more land to do so.

Joe Szczur (JS): WRA to share the design models with Mike Turley for his review.

Liberty Hill (LH): With the adaptive signals the level of service will be greatly improved.

Peggie Bednar N.Huntington Postmaster (PB): How much eminent domain will be done with these improvements?

Rachel Duda (RD): That information cannot be shared but the maps are available for review and individuals can review the distances from existing roadway to new proposed designs.

After the question and answer session the attendees walked thru the stations to review the maps.

At the map discussion, the Postal Services group was concerned that they would have to drive another 1/4 of a mile but it would be much safer with the displaced left.

- From a friend
- Other:
- Email
- Letter
- Community website

2. How would you rate the meeting?

Meeting Location	<input checked="" type="checkbox"/> Excellent	<input type="checkbox"/> Good	<input type="checkbox"/> Fair	<input type="checkbox"/> Poor
Time of Day	<input type="checkbox"/> Excellent	<input checked="" type="checkbox"/> Good	<input type="checkbox"/> Fair	<input type="checkbox"/> Poor
Displays	<input checked="" type="checkbox"/> Excellent	<input type="checkbox"/> Good	<input type="checkbox"/> Fair	<input type="checkbox"/> Poor
Presentation	<input type="checkbox"/> Excellent	<input checked="" type="checkbox"/> Good	<input type="checkbox"/> Fair	<input type="checkbox"/> Poor
Interaction with Project Team	<input checked="" type="checkbox"/> Excellent	<input type="checkbox"/> Good	<input type="checkbox"/> Fair	<input type="checkbox"/> Poor
<i>Other (please explain)</i>				

TELL US ABOUT THE PROJECT

- 1. Please provide any comments or feedback about the engineering drawings shown for the western segment project of the Route 30 Projects:**

I like the elimination of left turn cross traffic, but worry about access to businesses. Proper signage will be necessary to get people used to going the wrong way initially to get where they're going. Offer business owners their own signs telling their patrons. Proper ingress & egress; give them a NICE Penn Dot type sign for their business and you will placate many bothered people

PUBLIC OPEN HOUSE MEETING #3 – COMMENT FORM

Interaction with Project Team	<input type="checkbox"/> Excellent	<input checked="" type="checkbox"/> Good	<input type="checkbox"/> Fair	<input type="checkbox"/> Poor

Other (please explain)

very dissatisfied I think it should have been a question + answer forum and more knowledge if property is to be taken or not I think this is going to impact school bus traffic on JACKS Run Rd and nobody from school district or any elected officials were even there.

TELL US ABOUT THE PROJECT

1. Please provide any comments or feedback about the engineering drawings shown for the western segment project of the Route 30 Projects:

MY HOME IS OFF RT. 30 ONTO OLD JACKS RUN RD & I LEFT ONTO TERRACE/HILLAND CORNER. I AM IN FAVOR OF YOUR PROPOSAL FROM RT. 30+48 TO RT 30 & CARPENTER LANE. I REGULARLY TRAVEL ALL THE INTERSECTIONS IN BETWEEN ~~THE~~ AND RT. 48 TO MONROEVILLE & RT. 22, AS WELL AS RT. 30 EAST TO GREENSBURG & BEYOND. I THINK THE NEW CURVE FROM EDWIN TO OLD JACKS RUN IS EXCELLENT. I LIKE YOUR CONCEPT THAT WOULD HAVE ME TURNING INTO PETERSON FROM THE WEST, COMING TO THE TRAFFIC LIGHT & CROSSING OVER RT. 30 ONTO OLD JACKS RUN RD. ALL PLANS APPEAR TO IMPROVE SAFETY, #1 CONCERN WHILE NOT COMPROMISING TRAVEL TIME & CONVENIENCE.

K. YURIK

OWNERS

P.S. I THINK THE BUSINESS WHO HAVE CONCERNS SHOULD EMBRACE THE PLAN, LEARNING ABOUT ITS ATTRIBUTES & CONVEYING THE INFO TO THEIR CUSTOMERS.

Other (please explain)

I'm very impressed with proposed plans, if carried out, travelling Rt 30 should be safer and easier for all.

TELL US ABOUT THE PROJECT

1. Please provide any comments or feedback about the engineering drawings shown for the western segment project of the Route 30 Projects:

Very well thought-out plans, visuals were easy to understand.

My property appears to be one that may need to be purchased to re-work the Old Jacks Run turn-off. I will need to relocate if the current plans are carried out. I have mixed emotions about relocating, but think in the grand scheme of life, it will be good to help with the safety concerns of Rt.30 drivers. My family has had 3 cars destroyed at the current intersection of Edwin St. where we live and Rt.30.

Good luck with the planning and execution of this project.

Sincerely,
Bonnie Wiegand

TELL US ABOUT THE PROJECT

- 1. Please provide any comments or feedback about the engineering drawings shown for the western segment project of the Route 30 Projects:**

Our house is the first house on Glendale Drive off Route 30. As of now, the antique shop separates the noise and lights from traffic on Route 30 and the houses on Glendale. If the antique shop gets torn down for the new Route 30 Plans, will noise and light barriers be installed to accommodate the houses on Glendale Drive.

(Need No TURN ON RED making
Right from Carpenter Lane to Rt 30E)

(Edwin / Old Jacks Run Rd / Juggle Lane
ALOT OF TRAFFIC
STOP SIGNS Needed for all)

Emergency Delay to neighborhood
is ~~too~~ Very BAD
to include 30 second delay

PUBLIC OPEN HOUSE MEETING #3 – COMMENT FORM

Wednesday, May 29, 2019

TELL US ABOUT YOURSELF (optional)

We'd like to add you to our project contact list. Providing at least your name and email address will ensure you are notified about public meetings for future segments of this project. Your contact information will not be shared with anyone outside the project team.

Name:	Bill Wiegand	
Email:	bandbwiegand@aol.com	
Company:	Tastefully Simple, Inc.	
Address:	69 Edwin Dr N.H. 15642	
Phone:	412-610-2018	412-824-7061

TELL US ABOUT TONIGHT'S OPEN HOUSE MEETING

1. How did you hear about the meeting?

- Newspaper article/ad
 From a friend
 Other: _____
 Email
 Letter
 Community website

2. How would you rate the meeting?

Meeting Location	<input checked="" type="checkbox"/> Excellent	<input type="checkbox"/> Good	<input type="checkbox"/> Fair	<input type="checkbox"/> Poor
Time of Day	<input checked="" type="checkbox"/> Excellent	<input type="checkbox"/> Good	<input type="checkbox"/> Fair	<input type="checkbox"/> Poor
Displays	<input checked="" type="checkbox"/> Excellent	<input type="checkbox"/> Good	<input type="checkbox"/> Fair	<input type="checkbox"/> Poor
Presentation	<input checked="" type="checkbox"/> Excellent	<input type="checkbox"/> Good	<input type="checkbox"/> Fair	<input type="checkbox"/> Poor
Interaction with Project Team	<input checked="" type="checkbox"/> Excellent	<input type="checkbox"/> Good	<input type="checkbox"/> Fair	<input type="checkbox"/> Poor

Other (please explain)

Thank-you for looking at this section of PA ROADS.
 I have lost 3 cars on 30 x Edwin. The plans look great, the
 people from Penn DOT were wonderful, compassionate and knowledgeable.
 It is also nice that Penn DOT has kept us up to date &
 involve since the online survey with today.

Drop completed form in the comment box at the meeting, or email to:
 Joshua Zakovitch, PE, PennDOT Project Manager at jzakovitch@pa.gov

TELL US ABOUT THE PROJECT

1. Please provide any comments or feedback about the engineering drawings shown for the western segment project of the Route 30 Projects:

I love it can not wait to see more detail and to get the project started then finished of course

love the barriers and the way the turning lanes and traffic lights work. we live on Edwin and are so happy with the proposed change to intersect with Jack's Run.

We will no longer need to watch for people rear ending us as we wait for a left turn onto our street. and the turn grounds are well planned and placed throughout the whole project.

thank-you

TELL US ABOUT THE PROJECT

1. Please provide any comments or feedback about the engineering drawings shown for the western segment project of the Route 30 Projects:

Traffic Light very Necessary at Ardara Rd & RT 30.
There have been too many accidents there and
increased traffic load on Ardara Rd to 993.
I feel barrier is unnecessary in this section.

So glad to see a traffic light at Ardara + Rt 30. Very long overdue. Dangerous intersection. Should have been a light there when Hartford Heights School was built.

Important to have good access to Rt 30 for Hartford Heights Fire Co.

1. Please provide any comments or feedback about the engineering drawings shown for the western segment project of the Route 30 Projects:

When do you start? Rt 30 should have been
improved over decades ago. You have my full
support. I'll be contacting my Township &
State Representatives to secure funding for the
East section & express my full support for
the West section.

Eliminate dangerous electronic billboards
while you're at it.

Thanks for your efforts to improve the safety and
efficiency of the Lincoln Highway (Rt 30).

Appendix 5

Public Officials Invitation

May 15, 2019

(see enclosed listing)

Westmoreland and Allegheny Counties
Irwin Borough and North Versailles Township
Route 30, Western Segment
Public Plans Display Meeting

Dear :

The Pennsylvania Department of Transportation (PennDOT) Districts 12-0 and 11-0 are currently developing plans for the Route 30, Western Segment portion of the project. The purpose of the meeting is to preview preliminary engineering plans that have been developed for the **western segment** of the project (from the Route 48 intersection to Carpenter Lane/Leger Road) to modernize the US 30 corridor infrastructure in order to improve safety, mobility, and economic vitality. The meeting will be conducted in an open house format with an updated project video and display boards.

You are invited to an Open House Public Plans Display to review the proposed design plans on May 29, 2019, from 5:00 p.m. to 7:00 p.m. at the Hartford Heights VFD located at 14335 Route 30, Irwin, PA 15642. Representatives of PennDOT, and its design consultants, will be available to explain the project and receive your input.

The Public Plans Display location is accessible to persons having disabilities. Any person having special needs or requiring special aid is asked to contact Pennsylvania Department of Transportation approximately one week prior to the meeting. If additional information is needed, please contact Project Manager, Joshua J. Zakovitch, P.E., at 724.439.7377, prior to the Public Plans Display; or write

Ms. Rachel D. Duda, P.E.
Assistant District Executive-Design
Pennsylvania Department of Transportation
Engineering District 12-0
825 North Gallatin Avenue Extension
Uniontown, PA 15401-2105
ATTN: Mr. Joshua J. Zakovitch, P.E., Project Manager
