What's next for 2017: Bond County!

Since this ministry began, God has steadily expanded the vision beyond what we ever imagined. What began as a one-church ministry became a band of local churches coming together in Madison County. After that, we launched The Restore Network in St. Clair County and are now launching in Bond County!

We are excited to partner with Bond County Foster Hope who brings to us years of faithfully serving the foster families in their community. We welcome Greenville First Christian Church as the lead church for the Restore Network in Bond county and look forward to serving your foster families in 2017!
