

Glass Block Security Windows

STEEL REINFORCED SECURITY

- MDGlassBlock Security windows are locally made using the all masonry upright assembly process, 3 1/8" thick break resistant GlassBlocks, Reinforced with steel penrod and banded with a polypropylene strapping for added strength.

ENERGY SAVINGS

- MDGlassBlock Security Windows provide Thermal insulation to help reduce heating and air condition costs. They also contribute to sound reduction to reduce unwanted noise.

LIGHT TRANSMISSION

- MDGlassBlock Security Windows provide natural brightness transferring 77% of existing light.
- Decorative patterns can eliminate the need for curtains.

LOW MAINTENANCE

- MDGlassBlock Security Windows use internal design patterns with SMOOTH EXTERIORS for easy cleaning.

CHOICE OF PATTERNS

- "WAVY"... the classic pattern providing normal privacy needs
- "DIAMOND"... the distinctive design created for maximum visual impact and privacy.
- "ICE" ...providing privacy without strong style
- "SEETHRU"... Although *not* providing more light, it provides needed visibility.

INSULATED AIR VENT

- Vinyl Hopper (pull in) with Exterior Screen

OPTIONS

- Dryer Vents
- Power Vents
- Notches for Water pipes, Electric, Etc.
- Sub-Sills and Arches
