

Complete Energy Solutions

Energy efficient, gas-to-electric conversion and electric vehicle charging solutions for your business

Start saving energy and money for your business!

SMUD understands how energy costs can affect your bottom line. That's why we offer the **Complete Energy Solutions** program: a one-stop-shop to help your business become more energy efficient and reduce your energy bills.

Why should you get started today with Complete Energy Solutions?

1. Easy to participate

We know you have a lot on your plate. Our team will manage the entire process from the moment we walk into your business, and we'll plan our work around your schedule.

2. Lower energy costs

By upgrading to more energy efficient equipment, you can save money on energy bills and reduce your operating costs.

3. Cash flow positive financing options

Let your upgrades pay for themselves. For most customers, energy upgrades will immediately lower your monthly energy costs, so you'll save more money than you spend on finance payments.

4. Generous incentives

Our incentives cover a significant portion of your project costs. Our financing partners can help you cover the rest, so you have a clear path from installation to equipment payback.

5. Improved resiliency

Cutting energy costs is one way to make your business more resilient in economic downturns. Plus, installing new energy efficient equipment leads to fewer maintenance issues.

6. One-stop shop for future energy savings planning.

Complete Energy Solutions will help you design a long-term plan for deeper energy savings down the road.

Reduce your energy use by as much as 20%.

Complete Energy Solutions offers the following upgrade options to help your business save energy and money.

Refrigeration

- > Significantly reduce energy and maintenance costs
- > Improve sales by enhancing product appearance
- > Avoid risk of losing valuable inventory due to temperature issues with old equipment

Interior and Exterior Lighting

- > Promote safety and security on the interior and exterior of buildings
- > Create a more productive and comfortable workspace
- > Increase visual appeal of retail and office environments

Heating Ventilation and Air Conditioning (HVAC)

- > Improve comfort and air quality
- > Reduce noise from HVAC system
- > Take advantage of SMUD's Time of Day Rates and Automated Demand Response (ADR) benefits
- > Have one electric utility provider and eliminate the need for gas service

Qualifying Kitchen Equipment

- > Improve safety by upgrading old equipment
- > Increase comfort and reduce cost of space conditioning with electric appliances that generate less heat than gas appliances
- > Eliminate exposure to CO gas by switching from gas to electric stovetops
- > Save additional energy by downsizing and slowing down exhaust fans

Water Heating

- > Access more reliable hot water throughout the day
- > Avoid failure of old equipment
- > Improve safety by switching to an electric system
- > Have one electric utility provider and eliminate the need for gas service

PowerDirect®

Use electricity more efficiently by integrating SMUD's automated demand response technology.

Electric Vehicle Supply Equipment

Install charging stations on your property and receive an incentive from SMUD.

Contact us to learn more and sign up for your free energy assessment. We'll walk through your property, identify energy saving opportunities, and create a personalized proposal for you in the same day.

This program is brought to you by SMUD and delivered by TRC. | CES@trccompanies.com | 1-844-529-4084
