

# OCCCA

Orange County Child Care Association

## President's Message

Hello everyone!

Happy Spring and pre-Summer!!! Can you believe we are almost at SUMMER!?! Finally we are able to get outside with the kids to play and explore! Sprinkler fun is just around the corner! YAY!

May is bringing a bittersweet change. Our Secretary, Cyndi Casum, is retiring after 25 years she is going to spend some incredible time with her husband and family. We are happy that she will be able to rest and recoup a bit. As most of you are aware, Cyndi has recently lost her eldest son Christopher in a tragic accident. This will be a huge opportunity for Cyndi and her family to try and heal in this new phase of their lives. Cyndi has been a HUGE part of Orange County Child Care Association and will be missed in so many ways.

Help us in wishing her well and Godspeed in this new adventure.

*Lee Allton*

### NOTE:

**Secretary Position:** We are in need of a secretary to take over for Cyndi who is retiring. We need to fill this position right away. Please contact me at: [ALLTONL@AOL.COM](mailto:ALLTONL@AOL.COM)

# Vice President's Message

I hope you all are looking forward to the warmer months ahead as we spend more time outdoors enjoying the summer weather with our daycare kids. The birds are cheerfully chirping in my backyard as well as nesting in our succulent planters. The kids have been amazed at seeing them busily making their nests! Please read-up on the quarterly news section of this newsletter since I'm finding new information concerning the lead poison awareness in our homes. This information is very important to read up on. Also, please consider filling the open Secretary position on our board! We need someone to fill this position ASAP and we really could use your help! Our goal is to train new interested board members. I wish everyone a very happy and fun Summer season!

*Lynn Hallas*

## Area Coordinator News

### South County Coordinator

*Diane Spiesterback*

Hi Everyone, hope everyone is having a wonderful spring and all your gardens are getting full! It's great to be outside with all the children which includes outdoor snacks and outdoor lunches! It's important to keep the children hydrated. My children love when I add a little juice or a piece of fresh fruit of the season in their water cups. They think they're getting a treat which helps them drink more water. It's also a good time of year to change those filters which can effect the efficiency of our air conditioners. Also, check batteries on smoke alarms and Carbon Monoxide detectors. Don't forget to go around and check all outdoor toys and equipment to fix or replace. This is the time of year I like to check to see if anything needs painting. We had a lot of rain this winter which can dull the paint on the outside of our homes. Hope you all have a wonderful spring and summer!

#### *A Mother's Recipe*

*1 cup of love*  
*A sprinkle of sunshine*  
*1 cup of flowers*  
*Dash of stardust*  
*Stir in a Smile*  
*Toss in some laughter*  
*Mix it altogether*  
*And you have*  
*Mother! (add a child's handprint)*

### North County Coordinator

*Rose Gaba*

Wow, time is flying by! We are now beginning to experience sunshine. Remember to put sunscreen on all your little ones before going outside! I have all my water tables and toys ready for those extra warm days. Just remember to empty out any kiddie pools, water tables or anything that holds water when not in use. Supervise, supervise, supervise your children when in or around pools. The kids tend to gravitate toward water and we need to prevent any accidents from happening. If you haven't been visited by licensing this year, please be assured they will be out to see you. Beginning this year, you will be visited yearly. If you have questions on what their concerns are when they come out, log onto the licensing site, they update information all of the time. Hopefully everyone receives updates from them already. If not, it is never too late to sign up! Enjoy the beautiful weather that is coming our way!

Yield: 4 cups  
**Pineapple Orange Creamsicle Smoothies**

Add a tropical pineapple twist to the classic, beloved flavor of an orange creamsicle! These refreshing Pineapple Orange Creamsicle Smoothies are so delicious, so healthy (with lots of protein and nutritious fruit)!

Prep Time  
 5 minutes  
 Total Time: 5 minutes

**Ingredients:**

2 cups ice 1 cup non-fat vanilla Greek yogurt 1 cup (or an 8-ounce can) canned pineapple in juice, undrained (crushed, tidbits, chunks or rings) 1/3 cup frozen orange juice concentrate, thawed 2 tablespoons honey 1 teaspoon vanilla extract orange slices (optional, for garnish)

**Instructions:**

Put all ingredients except orange slices into blender. Blend until smooth. All ingredients should be well incorporated. Pour into glasses and garnish each with an orange slice, if desired.

Nutrition Information: Yield: 4 Serving Size: 1 cup Amount Per Serving: Calories: 180 Total Fat: 0g Saturated Fat: 0g Trans Fat: 0g Unsaturated Fat: 0g Cholesterol: 2mg Sodium: 59mg Carbohydrates: 40g Fiber: 1g Sugar: 36g Protein: 6g

Nutrition information should be considered an estimate only, and may vary depending on your choice of ingredients or preparation. No guarantees are made regarding allergies or dietary needs. Always consult a physician or dietician for specific advice and questions.

## Summer Art Camp

# Children in Hot Cars

Submitted by: Michelle Spoor

Last year the United States set a record of 51 children who died in hot cars. These deaths occurred in EVERY calendar month.

I have a policy of texting or calling the parents whenever a child doesn't arrive at their usual time. Most of them let me know in advance if there will be a change in schedule, but sometimes they forget. Any deviation from a normal schedule can lead to a parent forgetting routine things...unfortunately, sometimes it's the child in the back seat.

We've all seen the reports, "Parent forgets child is in car seat because they don't normally drop them off at daycare."

We, as child care professionals, can play an important part in the safety of the little ones we watch even when they're not in our care. It isn't necessary to tell the parents that you're worried about the child's safety. Just tell them that it's your policy to contact them if they don't arrive on time. Most of them will appreciate it.

You can also print out some suggestions for car safety and put them on your wall.

- › Maintain a schedule to reduce the risk of forgetting a child in a vehicle.
- › Keep parked car doors locked so children cannot get inside, and teach children that cars are not play areas.
- › Place a purse, briefcase or even a left shoe in the backseat of a vehicle so you have to look there before you lock the vehicle.

Let's make this a happy, safe summer!

Information for this article was obtained from:

## CHILD CARE LICENSING UPDATE

### *Child Care Licensing Program Mission:*

**The core mission of the Child Care Licensing Program** is to ensure the health and safety of children in care. We strive to provide preventive, protective, and quality services to children in care by ensuring that licensed facilities meet established health and safety standards through monitoring facilities, providing technical assistance, and establishing partnerships with providers, parents, and the child care community.

### Note from Pamela Dickfoss, Deputy Director

As the Department of Social Services' proposed Safe Sleep Regulations continue through the approval process, we are launching a statewide Safe Sleep Awareness Campaign to inform parents and caregivers on the risk of unsafe sleep environments. The Department's Community Care Licensing Division will be actively educating on best practices and providing resource materials to all child care providers across the state with the goal of reducing the risks of sleep related infant deaths.

As providers, we need your help. Please familiarize yourself with [safe sleep resources](#) and follow all best practices in your facility. A few simple steps, such as those recommended by the [American Academy of Pediatrics](#), can reduce the risks of unsafe sleep:

- Place infants on their backs when sleeping
- Use a firm sleep surface, such as a mattress in a safety-approved crib
- Keep toys and soft bedding, such as blankets, pillows, or bumper pads, out of the baby's sleep area
- Ensure pacifiers have nothing attached to them

In addition, please partner with us in spreading awareness about safe sleep to the families of children in your care. Listed below are informative resources you can give to parents and caregivers:

- [A Child Care Provider's Guide to Safe Sleep](#)
- [What does a Safe Sleep Environment Look Like?](#)
- [Guide to Proposed Safe Sleep Regulations for Child Care Facilities.](#)

Please review [PIN 19-02-CCP](#), [PIN 19-02-CCP Spanish](#)

If you have any questions, please contact your local Regional Office. Together, we can reduce the number of sleep related infant fatalities.

## In Memoriam- Darryl Jefferson

The Community Care Licensing Division recently suffered a terrible loss with the passing of our dear friend and dedicated colleague, Darryl Jefferson. Darryl devoted his entire career to protecting the health and safety of children and serving the providers and families of our state. Darryl's commitment to our Department's mission was exhibited in his strong work ethic, high moral standards and in his desire to be a positive influence on those around him. Darryl succeeded in his mission by performing his duties with great care, thoughtfulness and competence. He served as a true role model for excellence.

Darryl began his career with the Department in 1992 as a Licensing Program Analyst in the Oakland Child Care Regional Office, where he later promoted to Licensing Program Manager in 1999. After serving in that capacity for 15 years, Darryl promoted to Regional Manager of the Sacramento Regional Office in 2015, and then became an Assistant Program Administrator in 2018. During his 27-year career with the Department, Darryl worked with diverse groups and was committed to treating everyone fairly and with the highest integrity and professionalism. Darryl touched many lives over the course of his long career, and his impact on the children and families of our state is immeasurable.

We will always remember Darryl Jefferson as a kind and joyful person with a warm smile and for always bringing out the best in those around him. He will truly be missed.

## Safe Sleep Regulations-Update

The public comment period for draft safe sleep regulations has closed, and final rules are pending. Please check the [Child Care Licensing Program Homepage](#) for the latest update on Safe Sleep regulations.

In addition to new regulations, the Licensing Program would like to encourage caregivers and families to seek [guidance for best practices](#), as this information is useful and may be followed by anyone caring for an infant to help them sleep safely.

## Put on Your Own Oxygen Mask First

“Put on your own oxygen mask first before helping others.” You’ve probably heard this line as part of your standard pre-flight announcements, but the principle also rings true in child care: you can’t care for others if you don’t take care of yourself first.

Working in the child care industry can be a great experience, but it can also be overwhelming at times and lead to “provider burnout.” Caring for children is challenging, and it is important to recognize and take care of your own mental and emotional health. If you think you are experiencing provider burnout, you shouldn’t ignore it. Signs of provider burnout include:

- Fatigue or physical pain (such as headaches or backaches)
- Indifference or impatience toward children or families served
- Persistent feelings of isolation, anxiety, or stress

The “Put Your Own Oxygen Mask on First” webpage has [resources to help you address burnout, stress, and self-care](#). Provider burnout is real and can happen to the best providers. The secret is being aware burnout is possible and to take steps in advance before you experience issues.

It also may be helpful to network with other child care providers and for support —your local [Resource and Referral Office](#) can assist you in forming these connections and may have free resources for training and help with the operation of your child care facility.

## Sudden Unexpected Infant Death (SUID)/Sudden Infant Death Syndrome (SIDS) Spring Training Information

The California SIDS Program is hosting their [SUID/SIDS Spring Training](#) on April 26, 2019 at the Solano County Events Center in Fairfield, CA. Registration is now open!

## Smoke and Carbon Monoxide Safety Reminders

Spring is a good time of year to check your safety equipment in your home or facility. Did you know that smoke and carbon monoxide detectors have expiration dates? Carbon monoxide detectors are said to have a lifespan of five to seven years and smoke detectors approximately eight to ten years.

You may locate these dates on the back of the alarm as pictured below. For more information on smoke and carbon monoxide safety, you can visit the [National Fire Protection Association](#) or [California Department of Public Health](#) websites.

## Americans with Disabilities Act (ADA)

As places of public accommodation, licensed child care facilities have obligations under federal and state disability laws including Title III of the Americans with Disability Act 1990, 42 U.S.C. 12181, et seq. ("ADA") and the California Unruh Civil Rights Act and California Disabled Persons Act (Cal. Civ. Code §§ 51 et seq. and 54 et seq.). Each child care licensee is responsible for determining its legal obligations under these laws in relation to its employees, the enrollment of children, the provision of care and supervision of children and public access to the facility. You may want to consult with an attorney for advice on ADA and CA Unruh Civil Rights Act requirements.

[The United States Department of Justice](#) operates a toll-free ADA Information Line to provide information and materials to the public about the requirements of the ADA. To get answers to technical questions, obtain general ADA information, or order free ADA materials, child care facilities, parents, and other members of the public may call (800) 514-0301 (voice)/ (800)514-0383 (TTY).

DOJ publications also include a [Commonly Asked Questions about Child Care Centers and the ADA](#).

---

### THE COMMUNITY CARE LICENSING DIVISION'S QUARTERLY UPDATE

---

## Prevent Child Lead Exposure by Meeting New Requirements for Sharing Information

Beginning January 1, 2019, new law [AB 2370](#) (Chapter 676, Statutes of 2018) requires licensed homes and centers to share information on the risks and effects of lead exposure with enrolling and re-enrolling families. Visit the [Child Care Licensing website](#) to obtain a copy of the [Lead Poisoning Facts Information Flyer](#) designed to help providers meet new information requirements.

Did you know water is a leading source of child lead contamination? **AB 2370 also requires Child Care Centers to test facility water by January 1, 2020.** Please continue to check future Quarterly Updates for information regarding the new center requirement taking effect next year.

Also, learn if a water filter is [certified to remove lead](#) and see the [Environmental Working Group website](#) for helpful information regarding water filters certified for lead removal.

## Allergies in Child Care Facilities

Allergens are substances in the environment that cause a hypersensitive reaction in the immune system. Some common allergens include:

- Certain food items and medications
- Pollens from trees, grasses, weeds, or molds
- Venom from insect stings or animal dander
- Dust mites that live in carpeting, bedding, and other areas that hold moisture

Recently, there have been shortages of EpiPen (epinephrine) auto-injectors, which are used to treat severe allergic reactions. In response, the U.S. Food and Drug Administration (FDA) announced it will be [extending the dates](#) through which some EpiPens may be used beyond the manufacturer's labeled expiration date. Please review [PIN 19-03-CCP](#) , [PIN 19-03-CCP Spanish](#) which addresses how providers should respond to the EpiPen shortages and the FDA's extended expiration dates.

In addition, it is important for providers to be aware of children's allergies and any medication they are taking. The provider and staff should be trained in administering medications as needed. Medication should be stored in a centralized location which is accessible only to the provider and staff. If the facility has children that are on medications, the facility should have a current Incidental Medical Services (IMS) plan in place and submit a copy of the plan to the local Child Care Regional office. Below are some of the medical related forms that the facility should have on file, as needed:

<a href="#">LIC701</a>	Physician's Report
<a href="#">LIC627</a>	Consent for Medical Treatment
<a href="#">LIC9221</a>	Parent Consent for Administration of Medications and Medication Chart
<a href="#">LIC9166</a>	Nebulizer Care Consent/Verification
<a href="#">LIC702</a>	Child's Preadmission Health History – Parent's Report

For further information related to allergies, please visit:  
[Centers for Disease Control and Prevention-Food Allergies](#)  
and [Allergies- Questions Answered](#)

## [Checking the Megan's Law Sex Offender Registry](#)

Previous restrictions in law that limited where some convicted sex offenders may live have been struck down by the courts. However, convicted sex offenders must report their home address to authorities and many of those individuals are listed on California's Megan's Law Website.

Child care providers should regularly check the [Megan's Law Sex Offender Registry Website](#) by using the 'Map Search' to enter your facility address and select a mapping radius (up to 10 miles). You can help better ensure the safety of children by staying aware of sexual offenders who may live near your facility.

## [New Inspection Process Project Updates](#)

CCLD continues to develop standard and domain focused tools for the Child Care Program. In the coming months, CCLD will launch a three-month pilot of the Child Care standard and domain focused tools. These tools will facilitate inspections that focus on three priority areas: prevention, enforcement, and compliance. The tools developed through the Inspection Process Project will support the Department's efforts to conduct inspections that are consistent and thorough throughout the state and across licensing categories. To support this vision, CCLD is employing a data-driven continuous quality improvement (CQI) approach to the evaluation and improvement of policies and business processes. Through the CQI approach, CCLD will evaluate the overall health of licensed care in California, assess the underlying conditions that contribute to the overall health of licensed care, refine policies, procedures and inspection tools to target opportunities for improvement, and evaluate the success of the revised policies, procedures and tools. The new inspection tools and processes will be person-centered and will facilitate a robust qualitative and quantitative review of each licensed setting.

The Department has partnered with California State University, Sacramento (CSUS) to complete an in-depth analysis of the Senior Care Inspection Tool Pilot. [Highlights of the RCFE Pilot findings from CSUS](#) can be found on our [website](#). Also review [PIN 19-01-CCP](#), [PIN 19-01-CCP Spanish](#).

## Do You Want to Receive Financial Reimbursement for the Nutritious Meals You Serve? **Join Our Food Program!**

### The benefits of OUR Food Program:

#### *For the Provider:*

- Receive valuable nutrition education
- Identify the proper foods to feed for your age groups
- Learn how to encourage positive eating habits
- Spanish speaking agency

#### *For the Parent:*

- Child(ren) receive high quality, well-balanced meals
- Child is less likely to experience fatigue
- Less time a parent must be absent from work
- Children are more likely to be healthy, happy, & develop at a normal physical and intellectual pace
- Child is teaching the parent fun and easy recipes they can make together at home

#### *For the Child:*

- Establishes good eating patterns
- Enjoys meals that meet USDA nutrition requirements
- Nutritionally complete meals helping the children learn and grow

#### **\*\*La Habra's Commitment\*\***

*The City of La Habra provides a friendly-knowledgeable staff that is available to assist you with any questions and accommodate provider's needs.*

**Join our food Program**  
**Together we can make a difference.**
