DUE TO WATER BREAK

The Northern Cambria Municipal Authority repaired a water break near the 1300 block of Chestnut Avenue on February 20, 2024. This caused a boil water notice for approximately 370 customers in that area who experienced low or no water during that time.

A second repair is needed on February 21, 2024 in the same location. Customers who were affected on February 20th, 2024 will again experience low and/or no water for approximately 1-2 hours.

What Should I do?

DO NOT DRINK THE WATER WITHOUT BOILING IT FIRST. Bring all water to a rolling boil, let it boil for one minute, and let it cool before using; or use bottled water. You should use boiled or bottled water for drinking, making ice, washing dishes, brushing teeth, and food preparation until further notice. Boiling kills bacteria and other organisms in the water.

People with severely compromised immune systems, infants, and some elderly may be at increased risk. These people should seek advice about drinking water from their health care providers.

WHAT HAPPENED? WHAT IS BEING DONE?

The Northern Cambria Municipal Authority discovered a water break near the 1300 block of Chestnut Avenue. Since there will be negative pressure and homes will be without water for a short time, a boil water notice is necessary. We will post a corrected notice to the homes affected after 2 rounds of sampling is completed.

We will inform you when all corrective actions have been completed and when you no longer need to boil your water.
