PUBLIC INPUT MEETINGS

CHESTER COUNTY WATER PLANS UPDATES

From the County's scenic stream corridors to the clean water flowing from our tap, water resources play a prominent role in the lives of all Chester County citizens. To promote sound management of these resources, the Chester County Water Resources Authority is updating the county-wide comprehensive water resources plan and stormwater management plan, and **we want to know what water means to you!**

Six public meetings will be held throughout the County to give all residents a chance to learn about and discuss the topics you feel should be addressed by the plans.

Doors will open at **7:00 PM** for each meeting. At 7:30 PM, staff will present on current water conditions in Chester County and describe the planning and update process. We will then open the meeting for questions, discussion, and input from attendees.

All events are **FREE** and no pre-registration is required.

- 1 October 29th**
Warwick Township Building
2500 Ridge Rd, Elverson
- 2 November 7th**
